Dunn People Have Found That This is Necessary.

A cold, a strain, a sudden wrench,
A little cause may hurt the kidneys.
Spells of backache often follow,
Or some irregularity of the urine.
A splendid remedy for such attacks,
A medicine that has satisfied thousands

Is Doan's Kidney Pills, a special kidney remedy.

Many Dunn people rely on it.

Here is Dunn proof.

Mrs. Frank Bailey, 200 N. Clinton Ave., says: "I suffered for a long time with my kidneys. My back was so lame and sore, I could hardly get up when I was down. Dizzy, nervous spells were a common occurrence and often colored specks would float before my eyes, blurring my sight. I began using Doan's Kidney Pills and before long, they had me feeling like a different person. Doan's completely cured me."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Bailey had. Foster-Milburn Co., Mfgrs., Buffalo, N. Y.

TO THE TAXPAYERS OF HARNETT COUNTY

Your attention is respectfully called to that portion of the "Machinery Act" which provides a discount on all taxes paid before the first day of December. In order to take advantage of this discount, your taxes must be paid on or before the last day of November.

All taxes are due and payable on and after the first Monday in October and the books are now open so that each and every citizen may have full advantage of the discount by paying his taxes early.

I would most earnestly urge upon all citizens to take advantage of this opportunity to pay their taxes, thus making a saving to themselves and expediting the matter of collection.

Herewith is printed that portion of the law which refers to the time of payment of taxes, and also gives the rate of discount:

Section 88.—Taxes Due the 1st Monday in October.

All taxes shall be due on the first Monday in October in each year, and on all taxes paid in the months of October and November a discount shall be given to the taxpayer of one per cent. All taxes paid in the month of December shall be paid at the net amount charged, and from and after the first day of January a penalty of one per cent per month shall be charged and collected by the sheriff or tax collector; that is to say, that on all taxes paid in the month of January, after the first day of January, a penalty of one per cent shall be added on the taxes paid, and in the month of February, after the first day of February, a penalty of two per cent shall be added, and an additional penalty of one per cent for each additional month of delay in settlement of same.

REAL VALUES

Even With Money Plentiful You Want Its Full Worth

Dollars get mighty little for their owners under ordinary conditions during these times when producing markets of the world are taxed far beyond their capacity to make up for the four wasted years through which humanity has passed. No where now does the present dollar stretch as far as it did before the great war began. But, occasionally one finds a store where owners were forehanded—who bought wisely and well before the last great rise in prices were made.

The Draughon Store is one of these. Packed into it are great stocks of standard goods that were bought at prices that permit it to sell for a little less than the average merchant is obliged to charge. These are goods that you need for every day apparel and for special wear. They are good goods that we back with our reputation. We do not ask you to take our word for this. We want you to come and see for yourself.

We are featuring some especially good values in Men's, Women's and Children's [illegible] garments of all natures, and shoes, hats and [illegible]. These are big values and are well worth your inspection.

THE COTTON BOLL-WEEVIL MENACE

This Pest Now Near to North Carolina. Some Points Worth Knowing in Advance

"In 1906 I gave my first published warning to the cotton growers of North Carolina that the boll weevil was on its way and should begin to be considered. At that time I said that we should not expect it to reach the State before 1910," says Mr. Franklin Sherman, Chief, Division of Entomology.

In 1908, in a Bulletin of the State Department of Agriculture, Mr Sherman stated that the weevil would probably not reach the State "until 1915 or later."

"In both cases, my estimate was more conservative than that of most authorities, and in each case the developments proved that I might have been more conservative still," continued Mr. Sherman, "for here we are at the close of the growing season of 1919 and no boll weevil has yet been found in the State, yet we have been hearing 'reports' of its presence since 1903. It has been my purpose and intent to quiet these disturbing premature reports.

Boll Weevil Now Very Near.

"But now the case is different. While the weevil is not yet in the State it is quite near, and it is already affecting a part of our cotton industry. It is now present in the whole southern half (perhaps two-thirds) of South Carolina, and it has not yet finished its spread for this year.

"Its invasion of new territory is chiefly confined to the month or six weeks before frost (September and October), and there is every reason to believe that it will invade our southern tier of counties in the fall of 1920 or the fall of 1921 as it comes nearer we can predict with more certainty and I feel quite sure that the above [illegible]. Of course there are those who have said so do I) that the weevil cannot stand our climate, but we have [illegible] son to believe it; there is [illegible] son to believe that it will continue to spread until it is established in our entire cotton-growing [illegible].

"It already affects [illegible] the quarantine which [illegible] vent its accidental [illegible] duction prohibits the [illegible] ton seed into our State from [illegible] territory. A number [illegible] have heretofore [illegible] seed, and much of the [illegible] excluded, it affects their [illegible] and to some extent affects the cotton seed trade inside the [illegible].

Absentee Cotton Farming.

"Sky-high prices, war and other things have caused us to farm such things as boll weevil [illegible] dead issue, it is not [illegible] not died out. It is not under [illegible] control. Hundreds of cotton farmers who are now undermanned should it will be very much concerned with the next five years, unless [illegible] much mistaken.

"They will want to [illegible] quick, easy, simple, cheap, [illegible] for boll weevil which will enable them to continue profitable [illegible] ing of cotton, all of which is [illegible] impossible. They will want [illegible] these instructions by wire or [illegible] whole matter could be easily covered in a telegram! They will want to know how to 'get rid of' the boll weevil.

Weevil Will Regulate Acreage.

"Listen! Nobody has ever gotten rid of boll weevil, but many have learned how to get along with it. The means of combating it are [illegible] direct; they help, they lessen, they palliate, but do not actually do away with the difficulty. And the trend of the methods leads toward careful, [illegible], diversified on-the-spot farming. Planting early varieties, [illegible] fertilizers, frequent cultivation, running rows north [illegible] everything that will hasten maturity), picking up fallen [illegible] dusting with poisons [illegible] Bulletins of U. S. Department of Agriculture, prompt picking of the cotton, and then prompt [illegible] of the stalks without waiting [illegible] crop, all of which [illegible] the grower must be 'on the job' and cannot leave it to indifferent [illegible].

"It is probable that weevil will [illegible] in our warmest, most humid [illegible] the 'Spanish moss' region extending as well as anything. In the [illegible] east and east of the Atlantic [illegible] Railroad from Maxton, [illegible] Rocky Mount to Norfolk, [illegible] and expect the weevil to be [illegible] west of that line, in the higher hill sections, we shall [illegible] it to be less severe, but bad [illegible].

"WHAT'S THE IDEA"

Every once in so long a time, some [illegible] or sculptor executes in some [illegible] way a masterpiece, which [illegible] through any particularly [illegible] theme or study, but by [illegible] luck of fortune of which he [illegible] knows nothing. The same may [illegible] of authors and composers; [illegible] be that as it may, Charley [illegible] and Cady who will be [illegible] the Lafayette Theatre, Fayetteville, Wednesday, October 29th in [illegible] musical comedy success [illegible] "The Idea," struck a happy [illegible] of the writing of the book [illegible] and his partner developed [illegible] a merry farce, which aided and [illegible] by the lyrics and music of [illegible] Mac Doyle and Walter L. Rosemont [illegible] fair to number among the [illegible] ing artistic successes.

"MAY TIME"

"Maytime" the brilliant Shubert musical novelty, which Messrs. Lee and J. J. Shubert will offer for the first time at the LaFayette Theatre, Thursday, October 30.

"Maytime" is the work of Rida Johnson Young, one of America's foremost feminine playwrights. She is responsible for many successes but none of Mrs. Young's former hits, however, approach the record for popularity with all classes of theatre goers established by "Maytime" which in New York alone was seen by over half a million, during its run there that lasted over a year. The musical score with which the story of "Maytime" is embellished was provided by Sigmund Romberg, composer of many of the songs made popular in these elaborate Winter Garden Spectacles. The hauntingly pretty "Will you Remember" song which recurs throughout the play, has made the fame of "Maytime" across the continent because of the large circulation it has had in phonograph records and piano copies. "Maytime" which is in four acts or episodes, employs the talents of sixty-five persons, including an attractive, youthful chorus. It is staged on a sumptuous scale, rich in its appurtenances and true to every detail of the widely varying periods of New York life it depicts.
