October 27, 1919	\$1,388,479.17

The First National Bank publishes herewith the "biggest" statement ever published by any bank in the county, it is the only bank in the county that ever had more than a million dollars on deposit at one time; and it accommodates more people in all lines of legitimate business by its liberal, though safe methods of banking, than any other bank in this section.

To keep a good deposit with this bank during the Fall, while money is plentiful, does not only guarantee safety now but it purchases a line of credit for you next summer, when money is scarce; and the man of good judgment should open an account now and lay the foundation for future business.

The man who never deposits his money in the bank when he has it, is never entitled to a loan from the bank when he needs it, and every man who does any business whatever, needs the services of a good bank, and why not make the First National Bank, your bank?

It ought to be a source of as great pride to the depositor to have his bank account with the largest and strongest bank in the community, as it is to the stockholders or officer to own stock or have a share in the management of such an institution, and since you need a bank, WHY NOT CHOOSE THE BEST?
