

The old boy does not need a new scythe because he is passing out after putting the old blade to a mighty big test. You, however, will remain on the job and will need new blades and other things to hold your own against young 1920. You can get these and every other thing in Hardware at our store.

The roller or the bed can be replaced from our stock. The roller is a simple, inexpensive little thing, but its loss will cost you much in scratched floors, torn carpets, etc. Let us fix the old bed up.

## Happy New Year

Wood saws, axes, wedges and everything for the woodsman—this is the season when you need these things. Get them before prices advance again.

No need to worry about cold weather and fuel scarcity when you have one of our little oil stoves to keep the room warm.
