Save

If Ponce De Leon had been successful in his search for the fountain of eternal youth there would be little need in this day for the savings bank.

Youth is the springtime of life. It is the era of sowing. It is the time when we lay the foundation upon which mature years are to be spent. All things are possible to youth.

But the springtime is fleet. Winter is inevitable. It is in the springtime that we must prepare against the coming blasts.

Since we have no magic waters to keep us forever youthful, we must provide for the day when the tools of our trades are no longer useful in our hands.

The savings bank is the greatest safeguard against destitute old age. That is why we have instituted a savings department in our bank. We want you to use it. No matter how big or little your present worldly wealth may be, some time the savings you put into this department will serve you a good turn.

We Pay 4 Per Cent on Savings and Time Deposits.
START TO-DAY.
