SUMMER MUSIC

¶ With the coming of Balmy Spring and Summer nights with their attendant festivities the need and desire for good music becomes greatest.

¶ Unfortunately a large number of people are not musicians, although love of music is implanted in every normal human breast.

¶ For centuries those homes not blessed by the possession of a musician had no music—and they were often very bleak homes.

¶ Now, however, no home has to suffer this handicap.

A THOUGHT FOR THE WEEK.

No one has a right to waste money no matter how plentiful it may be. When a man indulges himself in everything his heart desires because money is plentiful, he is cultivating a habit of extravagance which will be very hard to cure. Cheap money is not going to last always and everyone who handles money should have an eye to the future. If men whose incomes are beyond the needs of an economical support will invest their money now while it is cheap, their investments will be worth twice as much when currency appreciates. For that reason we believe that every man who can save a dollar now should do so. A thousand dollars saved now will likely be worth two thousand ten years from now. There are always stocks on the market which are safe investments. Indeed, much preferred stocks guarantee a certain per cent in the way of dividends and they are so safeguarded as to make the money secure. This is the best time we have yet known for young men to get a start in life and they, especially, should take advantage of conditions rather than lose this day of opportunity by wastefulness.—Biblical Recorder.
