Establish Kitchen in Rooms Adjoin ing Chambers of Commerce

The Home Reconomics Department of the Woman's Club met in the Chamber of Commerce Building Friday afternoon.

is department will use as a kit

This department will use as a kit-chen the room adjoining the room used by the Chamber of Commerce. It is equipped with three oil stoves, tables, etc., and the women have de-cided to furnish their own utensils needed for each lesson. Miss Marion Swain, county demon-

Miss Marion Swain, county demon-stration agent gave a very instruc-tive lesson in making pastry for pics. Beveral of the ladies made mince pics, which were very much enjoyed by the class when the lesson was over. It was decided to hold the next meet-ing of this department on the fifth Friday in December as the fourth Friday comes on the day before Christmas. It is hoped that we will have a full attendance at the next meeting.

It pays to plant disasse-free pots-toes, as many can testify who plant de uncertified seed last season. A good landlord keeps in touch with his temants throughout the year others see their temants only to touch them for the rent. "First to start may be the last to finish tick eradication"—their's what they say about North Carolina with 10,087 square miles still infested.

ed and printed for vember compared in September.

Washington, D. C., Dec. 5.-Heavy increase in the movement of cotion was reported by the Federal Reserve Board in its review of business con-ditions for November although, the report said, a tendency developed in North Carolina and South Carolina toward a crop-holding movement. Continuation during November of the period of readjustment, which, according to the board, was accom-panied by a general refusal of con-sumers throughout the country to buy "until prices come down," show-ed no pronounced development in Virginia, North and South Carolina despite price reductions and improv-

Virginia, North and South Carolina despite price reductions and improv-ed transportation, while in Georgia, Florida, Alabama, Eastern Tennessee, Southern Mississippi and Southern Louisiana favorable agricultural con-ditions continued, despite some shrinkage in yield. The portion of the board's review dealing with the Southern states said that larger quantities than usual of low grades of tobacco were report-ad.
