

## Victrolas and Victor Records

We have a large stock of new Victrolas—finished in the prettiest woods and designed to match all styles of furniture.

With them we have the newest records made by the Victor Company's most noted singers and musicians.

The Victor machine is without a superior. It has few equals.

All the fine points of talking machines manufacture have been built into this machine which has stood the test service through the years since such machines became a part of the music world.

We will be glad to demonstrate these machines and these records to you.

COME AND HEAR THEM

## DELCO-LIGHT

Electricity at All Times!

Messrs. Wildon & Jackson, James Lake, Angola, Ind., say to Delco-Light: "Our Delco-Light is used for lighting a store, hotel, boat landing, three cottages and grounds. Our plant has been in operation for over a year but we have never been without lights."

24-Hours-a-Day Electric Service!

### GETTING IN TOUCH WITH THE BEST

Edward Everett Hale used to counsel young people to converse every day with some one older, better and wiser than themselves. We cannot all do that, but we can do the next best thing: we can get in touch with them through the printed page and enjoy the fruits of their wisdom and experience. Probably no publication contains so much from the writings of men and women distinguished in many ways as *The Youth's Companion*. A constant reading of the paper is a liberal education of mind and heart.

The *Companion* has no age limit. Professional men, business men and busy women prize it as highly as the young folk.

The 52 issues of 1921 will be crowded with serial stories, short stories, editorials, poetry, facts and fun. Subscribe now and receive:

1. The *Youth's Companion*—52 issues of 1920.
  2. All the remaining issues of 1920.
  3. The *Companion Home Calendar* for 1921.
  4. *McCall's Magazine* for 1921.
- The monthly authority on fashions, \$1.50 a year. Both publications, only \$3.50.

THE YOUTH'S COMPANION,  
Commonwealth Ave. & St. Paul St.,  
Boston, Mass.

### WHEN AUTUMN COMES

Autumn brings with it a lot of tasks that belong peculiarly to the fall of the year. Some of these are the work that comes simply because it's Autumn, the time of harvest—of garnering.

Some of these tasks come because Winter is following along on the heels of Autumn and preparation must be made before the icy blasts come, for the shut-in days and the long nights of the winter season.

Autumn is the time to get every thing snug—to replace all broken window panes, to put back into place the cellar windows, to get the winter's fuel supply housed in a good, dry place if that has not already been taken care of earlier in the season.

When the evenings begin to lengthen and indications come again of the long evenings that are ahead, it is a good time to think about the lighting system and to decide whether the present lighting system is good enough for the coming winter. If this is the old, coal-oil-lamp system it will pay to investigate the subject of electricity for lighting the farm or suburban home. Electricity can be had for lighting, nowadays in any locality, by means of one of the small individual electric plants and the farmer who will put one of these to work on his premises will be sure of modern lights for the long winter evenings ahead.

But he should not wait until win-

ter to plan for it. Electric lights mean electric wiring, the same as for a house in the city. An electric plant will require a concrete base for a support and this should be made while the work can be done in comfort. It is a mean job mixing concrete in the winter time and while it is a small one to make a base for the lighting plant, it's smaller than ever if it is made during nice autumn weather. And many thousand farmers and their families are declaring that it makes autumn more enjoyable to be able to look forward to winter evenings with plenty of bright electric light in the home instead of the coal oil lamps.

### ATTACKING YOU

Judge W. A. Devin, who is presiding over Wayne county superior court, is acting on the theory that the people of North Carolina provided means for bringing to justice persons who violate the laws, and as a result four of the alleged leaders of the Goldsboro mob which stormed the court house the other night have been arrested. It may be difficult to convict them, even though their guilt be proven, but they have learned that the courts are not impotent.

The sensational attack on Wayne county court house made everybody sit up and take notice; it brought to the sensible people of the state a realization of what mob law means. Here was a mob of nearly 2,000 men shooting into the court room.

The point we would like to make is that every day in the year, especially on Saturday, there are men storming the laws of North Carolina in Hickory and all other towns in this section of the state. The bootleggers and blockaders are busy. They are digging a tunnel under our civilization that will give way one of these days. It will be the cause of worse tragedies than the Lippard murder.—Hickory Record.

Pat Jones President; Margaret Wade, Vice-President; Helen Vaughan and Emily Grantham Sec. retary Treasurer

The High School Glee Club held its regular meeting Friday afternoon December 10, and elected new officers for the second quarter of the school term. The following were elected: Pat Jones, President; Margaret Wade, Vice-President; Helen Vaughan, Secretary and Emily Grantham, Treasurer.

The Glee Club thoroughly appreciates the earnestness and willingness of the retiring officers in fulfilling their duties.

This organization with its thirty-five alive members, has established itself as a precedent in the school, and already much benefit has been realized through the efforts of its members.
