

LEE COUNTY TURNS TO BERRIES AND PEACHES

Many Farmers Making Nice Profits From Them—Tobacco Average Grows As Weevil Approaches

Sanford, Dec. 7.—The rapid and certain approach of the boll weevil and the peculiar adaptability of the soil has led the farmers of Lee county to turn their attention to the production of other crops than that of cotton as the principal money crop.

Already it has been demonstrated that Lee county soil is adapted to the growth of the finest grades of tobacco, and the tobacco market here for the past two years has made good.

But many farmers in this section are unwilling to put all of their eggs even in two baskets. They are branching out into the culture of berries and peaches. For a number of years dewberries have been grown in this county with great profit.

MELICAL PROFESSION IS AGAINST DR. LORENZ

But the Famous Austrian Surgeon is Going to Do All He Can For Crippled Children

New York, Dec. 7.—Although keenly hurt by the cold shoulder he said the medical profession of this country had turned toward him, Dr. Adolph Lorenz, famous Austrian, indicated tonight he would probably continue to carry on his free clinics for crippled here.

"I'll stay, if they don't throw me out," he said tonight.

L. Lorenz attributed the feeling

against him to animosity bred in the medical profession of the United States. The people as a whole, though, had been wonderful beyond description in their reception of his work, the surgeon added.

"Whether I go home to Vienna or stay and do what I can is entirely up to the health commissioner of New York," he declared tonight.

When Health Commissioner Copeland was told of this, he said he would see to it tomorrow that Dr. Lorenz remained. He said he would call together a group of orthopedic surgeons and map out a channel for the Austrian visitor's activities that would shield him from exploitation and ensure warm and proper co-operation.

They say Germany wants raw materials. Send her some diverse cases.

Junior B. Y. P. U. Program For December 11, 1921. Miss Lucile Aycock, leader. Topic: Tales of the Red Man. Introduction: By group leader. (a) Poem: Kindness—by Eleanor Grimes. FERTILIZER HOME MIXING MADE A SUCCESS Use MEALYMONIA—Better for home mixing than cotton seed meal. When you use meal you get your ammonia from only one source. When you use MEALYMONIA you get AMMONIA from three sources, Sulphate of Ammonia, Tobacco stems and cotton seed meal. MEALYMONIA Analyzes as follows: Phosphoric Acid 1.00 Per Cent AMMONIA 7.00 Per Cent Potash 4.00 Per Cent Nothing to injure the seeds, will keep like cotton seed meal. ONE TON of MEALYMONIA mixed with a TON of 16 per cent ACID PHOSPHATE will give two tons of fertilizer analyzing as follows: Phosphoric Acid 5.50 Per Cent Ammonia 3.50 Per Cent Potash 2.00 Per Cent FOR SALE OR EXCHANGE BY N. E. LEE, DUNN, N. C. MADE ONLY BY LEE COUNTY COTTON OIL CO., SANFORD, N. C.

Pains Were Terrific Read how Mrs. Albert Gregory, of R. F. D. No. 1, Bladensburg, Md., got rid of her pain. "During... I was awfully weak... My pains were terrific... I thought I would die. The bearing-down pains were actually so severe I could not stand the pressure of my hands on the lower part of my stomach... simply felt as if life was for but a short time. My husband was worried... One evening, while reading the 'Birthdays' Almanac, he came across a case similar to mine, and sent straight for some Cardui for me to try. TAKE CARDUI The Woman's Tonic 'I took it faithfully and the results were immediate," adds Mrs. Gregory. "I continued to get better, all my life left me, and I went through... with no further trouble. My baby was fat and strong, and myself—thank God—am once more hale and hearty, can walk miles, do my work, though 44 years old, feel like a new person. All I owe to Cardui." For many years Cardui has been found helpful in building up the system when run down by disorders peculiar to women. Take Cardui "Bluebeard" Landru goes to the guillotine. Too many women will make many a man lose his head.

Plenty of Time for Guests Cole's Sanitary Down Draft Range with its perfect fire holding, smoking and baking range, is found in other makes of ranges, and is made of the best material. It is a range that will hold its own every minute of the time. Holds Fire Over Night COLE'S HOT BLAST FUEL SAVING SYSTEM of Cole's Range ranges a one-third to one-half saving of fuel bills, more positive cooking and better results are found in other makes of ranges, and is made of the best material. It is a range that will hold its own every minute of the time. Come to us for the Cole's Range and we will show you all about this wonderful fuel, food and labor saver.

At Eight Miles an Hour, or Eighty WHETHER crawling along at a snail's pace in congested traffic or hitting the high spots on an open country road, "Standard" Motor Gasoline will fire smoothly and burn up completely. That is why its sales are climbing out of all proportion to the increase in total gasoline consumption. Experienced drivers who have used a gallon of the improved "Standard" Motor Gasoline will cheerfully go far out of their way to place recommendations. But that is not necessary. Reliable dealers handling this ideally balanced motor fuel are to be found on both sides of the highway wherever you travel. They charge no more for "Standard" Motor Gasoline than others ask for inferior grades masquerading under fanciful names. If your motor is sluggish have the carbon cleaned from cylinders and spark plugs, empty the old diluted oil from your crank case, and after cleaning with a pint or so of kerosene, fill with POLARINE of the grade specified for your car. Then put "Standard" Motor Gasoline into your fuel tank and see what a good car can do. STANDARD OIL COMPANY (NEW JERSEY)
