

HALF OF COUNTRY'S ACTORS OUT OF JOBS

New York, Feb. 9.—There are today more unemployed actors and other stage people walking along Broadway and other main streets looking for jobs than ever before. Everybody in Times Square who knows anything about the theatre, from the out-of-the-way ticket hawk to the producer of a dozen hits, is complaining.

Several well-known managers estimated today that half of the 18,000 actors in the United States, exclusive of vaudeville performers, were out of work. The Actors' Equity Association said the number was not that large but was 20 per cent worse than usual.

Leopoldus As A Sublimus Fur Cactus

Leopoldus, one of the South's greatest legumes is the title of an interesting article prepared for the Leopoldus Seed Growers' Cooperative Association, Inc., by Dr. E. E. Lewis, Baton Rouge, a prominent farmer specializing in the growing of this profitable crop, who writes:

"While the name, Leopoldus, was supposed to have been given this plant by botanists in 1800; it was not until 1890 that it received the attention it merits warranted, as a commercial farm product, under the development of Col. J. B. McGhee, of Laurel Hill, Louisiana, who recognized its value as a feed for farm animals and as a soil builder, and who sang its praises for years. His place in southern agriculture is due largely to Col. McGhee.

"Leopoldus is an annual, maturing its seed in the fall, which shatter readily and recede the ground for the coming year. Normally, these seeds which shatter off at maturing time remain dormant until the warmth and moisture germinate them. It is the practice to plant from February 15 to May 1.

"The stems and branches of the Leopoldus plant are slender and the leaves small but very numerous. A good crop will grow to the height of 18 to 20 inches, and on fertile soils 30 inches is not unknown. It is estimated that a good stand of Leopoldus will represent a ton of hay for each 6 inches of its growth.

"This plant will grow on almost any of the types of soil in the cotton belt, but of course like most other plants does best on a more fertile, well drained soil. It is thought that no plant is more suitable to follow cotton, as Leopoldus brings the soil back to its former state of fertility.

"The custom of mowing Leopoldus with oats has become more or less a fixed habit among the producers, as the oats, by virtue of its shade keeps down weeds and grasses and allows the Leopoldus to make rapid growth. However, just as good crops can be produced when the seed is sown alone, but seeding with oats has the advantage of giving the planter two crops from the same ground during the year, with but one cost of cultivation.

Experience indicates that one bushel of seed (25 lbs.) per acre is about the right amount to be planted. It requires no inoculation, as the rough little jacks containing the seeds carry enough from the fields from which they are taken to insure perfect inoculation.

"No special soil preparation is necessary, although it has been demonstrated beyond a doubt that soils well supplied with phosphates will produce the greatest growth.

"The method of harvesting the hay will depend somewhat on the grade of hay desired. In any event, the chief effort should be directed to the preservation of the leaves upon the stems as they constitute a great part of the feeding value. Cutting is not started until the plants are in full bloom, and the hay should not be cut while the dew is on or while wet from rain.

"Little need be said in favor of Leopoldus hay as a feed for all kinds of stock after looking at the following comparative analysis: Timothy contains 2.5 per cent protein, 28.5 per cent carbohydrates and 1.4 per cent fat. Leopoldus contains 7.6 per cent protein, 31.0 per cent carbohydrates and 1.8 per cent fat. As compared with other legume hays it has the advantage of being free from woody growth, permitting its entire consumption and is free from the entire nutritive properties which make some legume hays undesirable for stock."

BOY SCOUTS ACTIVE IN BAY'S CREEK SECTION

Bay's Creek, Feb. 9.—Boy Scouts here are celebrating Boy Scout Week. Troop No. 1 of the Boy Scouts was organized December 22, 1921. The community is proud of the number of boys living up to the Scout Oath and law, doing the daily, "good turn," and "being prepared" for anything and everything in life and even for death itself. Path-making during the snow, wood-cutting for the sick, and other good turns are among the things reported by the scouts at recent meetings to the Scout Master.

It is the desire of the leader that the entire community co-operate in this great movement for the making of better citizens.

Disappointed Tourists Leaving Florida For North

Sanford Express.)
It seems that the working tourists and Weary Willies are not finding Florida the paradise this winter that they expected. Many tourists who went South during the fall expecting to get work in the "Land of Flowers" were disappointed. It is stated that many have sold their cars and are returning to their Northern homes right here in mid-winter. Some of these cars went for a mere song, hardly bringing enough money to pay the owners railroad fare home. Some decided to save money they received for their cars and are returning home on foot, buying a little feed along the way. Others pass through in tent cars, house cars and dilapidated Fords, carried them to Florida. They are going back to their homes for lack of money to stay at the resorts, while more fortunate tourists are now heading South traveling in luxurious Pullman and palace cars. Both classes of tourists pass over the Capital Highway and the Seaboard Air Line.

Johnson being the owners, is dissolved, the said Martin and Strickland withdrawing from the said copartnership and selling their entire interest to the said Henry P. Johnson, who will continue to operate the City Garage. All claims against the said City Garage have been assumed by Henry P. Johnson and all bills due the City Garage must be paid to him.

The said Messrs Martin and Harvey Strickland will continue in the employ of the City Garage and will manage their respective departments as heretofore.

White Hired Alabama Lady Says She Has Seen Medicines Come and Go But The "Old Reliable" Thedford's Black-Draught Came and Stayed.

Dutton, Ala.—Is recommending Thedford's Black-Draught to her friends and neighbors here, Mrs. T. F. Parks, a well-known Jackson County lady, said: "I am getting up in years; my head is pretty while. I have seen medicines and remedies come and go but the old reliable came and stayed. I am talking of Black-Draught, a liver medicine we have used for years—one that can be depended upon and one that will do the work."

"Black-Draught will relieve indigestion and constipation if taken right, and I know for I tried it. It is the best thing I have ever found for the full, uncomfortable

feeling after meals. Sour stomach and sick headache can be relieved by taking Black-Draught. It aids digestion, also assists the liver in throwing off impurities. I am glad to recommend Black-Draught, and do, to my friends and neighbors."

Thedford's Black-Draught is a standard household remedy with a record of over seventy years of successful use. Every one occasionally needs something to help cleanse the system of impurities. Try Black-Draught. Insist upon Thedford's, the genuine.

PERSONAL FRIENDSHIP

WE ARE GREAT BELIEVERS IN FRANKNESS. ADVOCATES OF FACING EVERY ISSUE WITH OPEN MINDS AND HONEST HEARTS. Neither are we an exception. Dunn folks have, as a rule, always been of this disposition and this has been one of the contributing factors in the upbuilding of our city and its institutions.

OUR MUTUALITY OF INTERESTS HAS BEEN THE INSPIRATION OF THE PAST AND WILL BE OF THE FUTURE. The relations of the business men of Dunn and its citizens have been peculiarly interwoven in the work which has already been done towards our city's advancement. But we feel it to be your desire and theirs to have even a better understanding prevail THAT WE ALL MAY LABOR WITH A COMMON PURPOSE AND A UNITED EFFORT.

WE FEEL THERE IS NO PRICE CAN BE PUT UPON THE VALUE OF PERSONAL FRIENDSHIP. And whether we are intimately acquainted or not, it is only thing which all of us Dunn people possess for each other in the fact that we are all Dunn folks. It is this idea that prompts us to urge greater allegiance to our community BY A MORE SOLID BACKING OF ITS BUSINESS INTERESTS.

Isn't it worth something to you, friends, to spend your money with Dunn business institutions whose owners are Dunn men and women like yourself? Isn't it satisfying to you to feel that when you hand over your money in exchange for merchandise or service, that you are handing it over to someone who is, at least, INTERESTED IN YOU AND YOUR EXISTENCE IN THIS COMMUNITY?

Doesn't it make your blood surge a little more rapidly to know that this connection between individuals is not just a cold, lifeless happening of business but instead is warmed by the knowledge THAT YOU ARE A LOYAL CITIZEN TO THE INTEREST OF YOUR TOWN; that you are dealing as friend with friend and to the mutual advantage of both yourselves and your community.

Contrast with this if you will the spending or sending of money from Dunn and you will instantly picture a business transaction with strangers WHO CARE NOT NOR CONCERN THEMSELVES WITH YOU OR YOUR WELFARE IN THE SLIGHTEST. What happens to you or your family, your dollars or your property is entirely foreign to this transaction. It is a severe, calculating business procedure where both of you stand as strangers with no community of interests or aspirations. The dollar you spent is the basis of operations. A sordid business transaction the result.

We warn you folks about this the next time you make your purchases. Every business man of every line represented in the city is at your service. And we might add—AS FRIEND TO FRIEND.

Everyone of the business firms whose names are appended herewith do business on this basis, folks. And they are only part of the entire number who go to make up the personnel of Dunn Business district—MEN WHO CONDUCT THEIR BUSINESS ON THIS HEART TO HEART PLAN. Notice this in the future.
