DO YOU WANT TO STAY POOR?

Get out of your head the idea that Poverty is something you cannot help. Just so long as you stick to that theory, just so long poverty is going to stick to you. People in most cases are poor because they are too indolent—too careless—too thoughtless. Sit down and figure what you are spending—and what you can do without. Not the things that cost dollars—but articles that cost pennies. How many pennies do you waste a week? Multiply that by 52—multiply that in turn by 50. You will then get some idea of why people stay poor all their lives. Fifty years of waste will turn even a millionaire into a pauper—while 50 years of economy will make a poor man rich.

For the pennies that are wasted are responsible for most of the misery and practically all the poverty in the world.

A Bank Reference

A savings bank book is the best kind of business and personal reference. It is evidence of habits of industry, self denial and prudence.

Savings regularly indicates proper consideration for future welfare as against whims or follies of the hour. This is a stepping stone to the social virtues which are held in esteem.

As a proof of business reliability and social desirability a savings account is convincing.

TIRES! TIRES! TIRES!

TIME TO RE-TIRE BUY THE BEST

What is the best tire on the road? Why Red Top Fisks, of course. Don't believe us? Then ask J. R. Strickland, the Mail Carrier, who run one 16,500 miles. Or ask Dr. W. E. Coltrane, who run one 17,000 miles, other names if you wish them.

HARTFORD CORDS, are good ones also. K. L. HOWARD has two on his Cadillac that have already gone beyond the 18,000 mile mark and they are good yet. Yes Sir, they are the cheapest, because they are heat, and tires are cheaper than they have ever been. VESTA BATTERIES.
