

THE DUNN DISPATCH

VOLUME IX.

DUNN, NORTH CAROLINA, June 11, 1922.

NUMBER 20

B. & L. MEMBERS ENTHUSED OVER PLAN'S PROGRESS

Make Third Payment Promptly And Many New Ones Appear

LEE ENCOURAGED BY FINE SHOWING MADE

Loans To Three Subscribers Approved By Board and Building To Start Soon—Several Others Being Considered—Much Interest Shown By Community.

With considerably over 2,000 shares actually in force and many more subscribed, the Dunn Building and Loan Association bids fair to attain the desired goal of 3,000 within the next month or so, according to Eugene T. Lee, secretary and treasurer.

Yesterday and Saturday marked the third collection period since the organization of the association on June 3. Payments were good and fully up to the mark expected. Many who had subscribed for stock earlier in the month, but to whom it had not been issued, came in yesterday and paid up. Many more are expected during the week.

Loans to three subscribers have been approved by the directors and will be made as soon as deeds to the property upon which new mortgages to be built are approved by the attorneys. The loans will be made to Jesse M. Wilson, David M. Pearnell and Joseph J. Stephenson, all of whom will build immediately. Other applications for loans are being investigated and probably will be approved within the next week or two.

It is thought that subscribers can begin building at least six new homes within the next two months, since only installments of the loans are given as the work on the buildings progresses. All of these homes will be completed and paid for before the end of the year.

There is no doubt that all who desire to build homes in the building and loan plan will become members within a short time. With the present membership it will be possible to build five \$3,000 homes every four months for the next six and a half years, at the expiration of which time all of this series of stock will have been paid up. Under the system members pay \$5 a week on stock which will entitle them to a \$2,000 loan. After they have paid for six and a half years, the total indebtedness is retired and the home is free from incumbrance.

Realizing that new homes attract new people, merchants and other business men have subscribed largely of the stock and probably will not require loans. Contractors, lumber manufacturers and building supply men, also, are supporting the association nicely.

FORD PLANTS HAVE BUILT SIX MILLION FORD CARS

Four Out of Five Cars And Trucks Sold Since 1908 Still In Operation

The six millionth Model "T" Ford Motor was produced May 18th, in the Ford Factory at Detroit. In other words, from the time back in 1908 when the Ford Motor Company began marketing the now famous Model "T" Motor Car until May 18th, 1922, a total of six million Ford Cars and Trucks have been produced. Out of this total 5,617,956 were delivered to purchasers in the United States alone, and according to the latest statistics, 4,478,248 of these Ford Cars and Trucks are still in daily service.

Thus it will be seen that out of every five Ford cars and trucks sold to retail purchasers in the United States alone during the past fourteen years, four are still in actual daily use, which is really remarkable when the hard service of commercial cars is taken into consideration. This seems to forebodingly confirm the popular knowledge of the longevity of Ford cars.

That Ford products have been quite evenly distributed throughout the United States is borne out by the fact that through the sparsely settled communities in the west to the densely populated cities in the East, practically the same ratio of Ford cars and trucks to population exists.

Ohio leads with a total of 290,769 Ford Cars and trucks in daily use; Illinois comes second; Pennsylvania third, Texas fourth, and Michigan fifth, with a total of 224,081. New York and Iowa and California follow in the order named, each having more than 200,000.

FOUNTAIN TO BE ERECTED BY LOCAL D. A. R. CHAPTER

At the regular meeting of the Cornelius Harnett Chapter D. A. R. with Mrs. H. S. McKay, June 8th, it was unanimously decided that a sum of money be deposited as a nucleus of a fund to erect a fountain as a memorial to the world war heroes, and that the chapter work towards that goal setting aside a portion of all money made, for that purpose. The chapter also voted to make a contribution to the Gorgas Memorial Fund, and the Near East Relief. The treasurer was instructed to send checks at once to these funds. Remembering that the D. A. R. is not merely a social organization but has as its object—"to collect historical lore and foster the advance of knowledge" the chapter decided to give something towards the maintenance of an industrial school in Western North Carolina. A committee was appointed to look up the graves of Revolutionary soldiers and mark them.

It was decided that the chapter discontinue its meetings until September on account of a number of the members being out of town.

For the program Mrs. Nathan Johnson read "The American's Creed" as broadcasted by its author" and Miss Rachel Clifford gave a report of the District meeting in Winston-Salem May 26th where she was as a delegate from "Cornelius Harnett." A very impressive memorial service for Mrs. Belle Fleming was then conducted by the chaplain, Mrs. Paul Hood at which time Mrs. Wade read a very beautiful tribute to Mrs. Fleming and Mrs. Hood read an appropriate Bible selection and led in prayer.

After a pleasant social hour in which Mrs. McKay served a salad course and mints, the meeting adjourned.

P. K. HONEYCUTT TAKES OVER INSURANCE BUSINESS

Mr. P. K. Honeycutt, of Varina, has taken over the insurance business formerly handled and which is now being handled by F. W. Kurfess, of Varina. Mr. Honeycutt is at present located in Dunn, North Carolina and is a native of Harnett County and has lived there practically all his life. He was formerly connected with the Walter Gurley Auction Company, but since severing his connection with that firm has been in the insurance business and located in Dunn.

Mr. Honeycutt says he will have offices in both Varina and Fuquay Springs, probably in the bank building. He will do a general insurance business, including fire, life, hail, storm, and in fact a general line of insurance representing a number of well known companies. He hopes to move his family here in the course of a few weeks. — Fuquay-Varina Weekly.

BARACA-PHILATHEA MEET THIS WEEK

State Convention At Hendersonville June 15-18; Prominent Speakers

Asheville, June 11.—The twelfth Annual convention of the North Carolina Baraca-Philathea Union will be held in Hendersonville, June 15th to 18th inclusive. Marshall A. Hudson, founder of the movement, and Mrs. Hudson will attend this convention. He is a member of the first Baraca Class of Syracuse, N. Y., the first Baraca class ever formed. The class is one of the biggest features of the Sunday School.

Dr. Henry Clay Morrison, president of Ashbury College, Kentucky and editor of the "Pentecostal Herald," will take part in the deliberations of the convention, and make two or three addresses.

Other prominent speakers of the convention will be: Dr. Robert J. Bateman, of the First Baptist Church of Asheville; former Lieutenant Governor O. Max Gardner; Mrs. H. M. Finch, of Rocky Mount; Mr. C. L. Logg, of Detroit; Mrs. W. C. Upshaw, of Georgia, and others. Mr. Logg is General Division Superintendent of the National Baraca Philathea Movement.

The Erlanger Baraca band of 30 men will attend the convention, and with the orchestra furnish part of the music. Sunday afternoon there will be a mammoth Sunday School parade with A. B. Saleeby of Salisbury, as Chief Marshal.

The first Baraca-Philathea pageant ever given will be a feature of the opening night. This pageant will portray the origin and organization of the movement and some of its activities.

Reduced railroad rates of one and one-half fare upon the identification certificate plan. Certificates will be furnished upon application to the State office in Asheville.

HOLLAND'S NAME SENT TO SENATE FOR FINAL O. K.

Dunn Postoffice Fight Ends In Victory For Captain Bill

EDGAR CARLISLE YIELDS WITH COMING GRACE

After Keeping Office For Year Against All Odds, He Smilingly Prepares To Leave—Confirmation Is Expected Within Next Few Days—Stood Third On List.

After a year's success in his efforts to keep the job of "acting" postmaster at Dunn, Edgar Carlisle West is about to be pried loose. The name of Captain William D. Holland, presidential preference for the office, has been sent to the Senate and probably will be confirmed within the next few days. With the confirmation, Captain Holland will become postmaster and Mr. West will return to the practice of law.

Holland supporters have had a hard time getting Edgar Carlisle's name. Many times they thought they had him ousted, but the tall boy possessed unusual resiliency. He always came back. Not until months after the "evil" service, which held Capt. Holland to be the likeliest candidate by reason of his being the only Republican who came close enough to T. Lee and Ralph Wade to get into the running, were the anti-Westites able to get Capt. Bill's name past the normalcy president.

Many charges have been filed against some of the Republican candidates. Most of these were thrashed out. Capt. Bill was found to be not wanting in any of the qualities desired by those who do the appointing. There will be no further fight, and Edgar Carlisle will yield with all the grace possible to one who has held the office against all sorts of odds for a year.

Mr. West was the choice of John

See upon telegraphic instructions which gave the Democratic incumbent, Eugene Lee, hardly time to check up the accounts of the office. He entered with a grin. He leaves with a smile. Following his appointment as the temporary holder, civil service examinations were ordered, but not until the Republicans had looked over the Southern field and found that it would not be safe to allow their candidates to enter contests with Democrats without being safeguarded by some sort of break-water against which the Democrats might but their heads without danger to the safeguard.

Postmasters were to be chosen through civil service shorn of all civility. They were to be chosen from the first three names on the list of eligibles. Because at least two good Democrats stood ahead of Captain Holland, there was no place on the list left for Mr. West. Therefore, he was shoved into the discard.

MR. HORNADAY TAKES CHARGE OF COLLEGE

New President of Davenport Inducted Into Office—Comes From Trinity College

Lenoir, June 11.—C. L. Hornaday was formally made president of Davenport college yesterday. Dorman Thompson of Statesville, president of the board of trustees, Rev. J. F. Kirk, of Salisbury, secretary, F. C. Sherrill of Cornelius and Mr. Hoyle of Charlotte, members of the board of trustees, together with Rev. J. B. Craven, the retiring president, were here for the purpose of administration.

In February of this year Mr. Hornaday was elected president of Davenport college by the board of trustees to take charge of the first of June when Mr. Craven would finish up his year Mr. Hornaday was a member of the faculty of Trinity college where he had been for about 20 years, serving both in the college and in Trinity Park school.

Mr. Craven, the retiring president, is presiding elder of the Charlotte district, and has been actively engaged with this work since last annual conference. However, he was able to conduct the affairs of Davenport to the first of June also. Davenport college has grown wonderfully under the management of Mr. Craven, and it is expected to continue to grow, increase and develop under the new president.

Mr. Bryan has not yet converted Eve to his theory of creation. "If he were made of mud," says Eve, "he'd certainly dry up once in a while." — New York Tribune.

HOTEL PROJECTS REVIVED, STRUCTURE TO BE BUILT SOON

Kehee, Lillington Offers To Raise \$100,000

COMMITTEE TO ESTIMATE COSTS

Bankers, Merchants, Lawyers, And Loan Companies To Discuss Plans—Much Interest Shown—Only \$100,000 Offered

If Dunn is to have a new hotel, the project is not dead. A committee of bankers, merchants, lawyers, and loan companies is to be organized to estimate the cost of the proposed structure. The project was revived after a year's inactivity. Mr. Kehee, of Lillington, has offered to raise \$100,000 for the project.

Mr. Kehee, of Lillington, who has offered to raise \$100,000 to build a hotel, would like to see the project through. He has already secured the services of an architect and is now estimating the cost of the building.

Mr. Kehee, of Lillington, who has offered to raise \$100,000 to build a hotel, would like to see the project through. He has already secured the services of an architect and is now estimating the cost of the building.

Another plan which has not been made public was submitted to the meeting and seems to have met with the approval of all present. This, however, will not be presented to the people until its feasibility has been investigated.

CAROLINA POWER BEGINS DRIVE FOR ELECTRIC SIGNS

W. B. C. ... Ann of Knoxville Here For The Campaign

WANT DISPLAY FOR EVERYWHERE DOWN

In Letter to ... Points Out Advantages Which ... Use Of Illuminated Signs ... Along ... Business ... Dunn ...

Called by the Carolina Power and Light Company to assist merchants and other business men in arranging electrical signs for the business district, W. B. C. ... of the Greenville ... company, of ... Dunn ... and immediately began a ... through the company hopes to induce every merchant to place a sign before his door.

C. T. Isley, manager of the new business department of the company, in announcing Mr. ... coming through a letter to prospective purchasers of signs, ...

"A well lighted sign with many good looking electric signs brings the stranger and the man—both are walking advertisements and the best boosters ever found. You have doubtless heard them speak of 'that town somewhere' with dark show windows and no electric sign. They invariably say the 'dead' and never go back again."

Outdoor signs are being back. In a few days the evening strollers will be out on the main street. For months ...

CONTINUED SIGNS OF IMPROVEMENT ALL OVER NATION

Renewed Easing Of Money Rates Also Feature In Business And Finance

DIVERSE TESTIMONY AS TO CROP PROSPECTS

Cotton Prospects Not So Encouraging As Result Of Washing And Boll Weevil Damage; Automobile Production Picks Up; Commodity Prices Firmer.

New York, June 11.—Continued indications of industrial improvement, signs of a renewed easing in money rates and diverse testimony as to crop conditions are the features in business and finance of the past week. Commodity prices still show a firmer tone, retail trade is about what might be expected at this time of year and the labor situation shows no decided change. Altogether, the picture continues to be one of gradual, but fairly steady recovery from depression—a recovery, in fact, which on the whole exceeds expectations entertained early in the year.

From the industrial field, recent reports show that the steel plants are still operating at rates which compare favorably with full capacity operations before the war — even if these rates correspond only to 75 per cent of present capacity. Steel prices are firm and most of the companies appear to be making modest profits. The value of building contracts let in twenty-seven Northeastern states during May set a new high record for all time and was six times greater than the monthly average during 1914.

Automobile production during May also exceeded all previous records, while the steel companies report increased demand from manufacturers of agricultural implements. Railroad freight rates during the week ending June 10 were 16 per cent greater than in the same week a year ago. Orders for railroad equipment continue to be placed in satisfactory volume.

Latest report from the Northwest indicate, meanwhile, that the prospects are for a good wheat crop. Prices of wheat for future delivery have, to be sure, declined sharply in the last few weeks, but a liberal supply of grain at fair prices is considered to hold out better prospects for general business than a short crop at high prices.

On this basis cotton prospects are not so encouraging. Floods have washed out important growing areas in the Southwest while the mild winter and wet spring have aided the boll weevil and delayed planting. Further rain, during the past week in many parts of the belt caused something resembling a crop scare. As a result prices jumped to the highest since last October the leading futures crossing 22 cents.

54 DEAD IN STORM SWEEPING NEW YORK

Sixteen Persons Are Drowned In Long Island Sound—Storm In Ohio Kills Several

New York, June 11.—A violent storm accompanied by shifting winds that reached a velocity of 85 miles an hour, took the lives of 24 persons, injured more than 100 and caused enormous property loss in the metropolitan section late today.

Sixteen boaters were reported drowned in Long Island sound during the mad storm. Eight bodies have been recovered. The police station at City Island is besieged by crowds trying to identify the dead, and seeking missing kin and friends.

NORTHCLIFFE WON'T REDUCE WAGES OF HIS PRINTERS

London, May 25.—Opposed to efforts to reduce the wages of printers on London daily newspapers, Lord Northcliffe has resigned from the Newspaper Proprietors' association. He takes all his newspapers, including the Times and the Daily Mail, with him. He has let it be known that there will be no reductions in the wages of printers employed on his publications. The association was involved in the matter; hence he decided to break with it.

In a statement on the subject Lord Northcliffe declares he objects to capitalists, ignorant of Fleet street, dictating terms to men who have spent their lives trying to understand the complex questions of a newspaper. With the possible exception of some sporting journals and a labor publication, he says, a millionaire is behind every single London daily newspaper.

FUNERAL OF MRS. A. D. BYRD LAST FRIDAY AFTERNOON

Last Friday afternoon at 2:30 o'clock, the body of Mrs. A. D. Byrd was laid to rest in the cemetery at Pleasant Plains Methodist church, in Harnett county. Mrs. Byrd passed away in Greensboro, on Wednesday, May 31, the body being brought to the old home for interment. Although she had been in poor health for a number of years, the immediate cause of her death was a stroke of paralysis, from which she partially rallied, only to relapse again, the end coming in about a week after she was stricken.

Funeral services of unusual sweetness and impressiveness, and attended by a large number of sorrowing friends, were held at the home of her daughter on Tase street in Greensboro, Rev. J. H. Barnhardt, pastor of West Market Street Methodist church, and Rev. E. P. Billups, assistant pastor of the same church, together with Rev. W. A. Lambert, pastor of the Wesley Memorial Methodist church, of High Point, were in charge of the services. Rev. Mr. Barnhardt, in his talk, paid high tribute to the fine Christian character of Mrs. Byrd, to her devotion to duty, to the fine ideals of service which had characterized her life, and drew from her life lessons of inspiration and helpfulness to those who were left behind. Rev. Mr. Billups read from the Scriptures and led in prayer. Rev. Mr. Lambert, a former pastor and friend of the family, paid a beautiful and touching tribute to "Mother." He spoke of the memories that would forever bless, of the enrichment that would come to those who loved her, and how the ribbons of love would forever be tugging at their hearts, pulling them to higher and better things.

During the service the West Market church quartet, composed of Miss Suggs Patterson, Mrs. H. M. Ware, Mr. W. H. Hatfield and W. M. Hess, rendered "Abide With Me" and "Bede in the Arms of Jesus." Miss Olga Loaman of the North Carolina College sang "A Perfect Day," a favorite of Mrs. Byrd's. Many beautiful floral tributes were sent by friends of the family.

W. A. ERWIN MAKES LIBERAL DONATION

Gives \$50,000 For The New Episcopal Church At Chapel Hill

Chapel Hill, June 12.—An interesting bit of news leaked out in this community today when it became known that W. A. Erwin, chief owner of the Erwin Cotton mills, is to be the donor of the new Episcopal church the construction of which will begin at an early date.

The exact amount that will be given by Mr. Erwin has not been definitely learned, but it is known that the Durham-Durham mill manufacturing company will make a gift of at least \$50,000 on the Episcopal church this sum to go to the construction of the church itself, rather than the incense of the new parish house, improvement of the grounds, and other projects under way by the Episcopalians will be paid for from other sources.

Some time ago the plans for construction of the new church and additions were announced. Before that there had been talk of enlarging the old church, known as the Chapel of the Cross, but when the Barbee property was acquired, definite plans were made to build an entire new church and let the Chapel of the Cross stand, and now comes the good news that Mr. Erwin will be the donor of the new church.

The Barbee property adjoins the property on which the little Episcopal church now stands. It is planned to have a collared effect to connect the new structure and the chapel of the Cross, the latter to be used for Sunday school services and such other functions. The new edifice will be one of the most handsome churches in the community, and will be amply large enough to accommodate the congregation which has outgrown the little Chapel of the Cross.

SANITARY DRIVE STARTED BY CITY HEALTH OFFICER

Dr. H. C. Turlington Bollets Aid of Chamber of Commerce

ASKS BREEDING PLACES OF FLY BE BANISHED

Stables Offer Greatest Danger To Health Through Furnishing Cradles For Infant Fleas—Wants Laws To Compel Owners To Remove Health—Grave Danger.

Kill the stables! Banish the dirt, the filth, the rubbish and all of the things in which disease carriers find their breeding ground!

That is the cry to be heard in Dunn all this summer or until the people are taught that preventive measures are worth all the attempts at cure in the world.

At the suggestion of Dr. H. C. Turlington, city health officer, the chamber of commerce will get right behind a movement to create so strong a desire for real sanitation that the town will be compelled to enter the movement and pass laws that will compel greater regard for the public health.

The biggest trouble is with the fly. He is the deadliest of all pests. His breeding ground is in filth and his favorite feeding places is the kitchen, the dining room and baby's plate. He carries death and disease to thousands.

It is in the stalls of mules, cows and horses that the fly is born. The place to "get" him is in the cradle. Once he acquires wings he is very dangerous. The average manure heap is responsible for millions of flies during a season. As long as the manure heaps are allowed to stand in town, the flies will swarm.

Dr. Turlington advises the removal of manure at least once a week. But is not, gratifying, all that is required.

Four times a week and the manure placed in screened piles and sprayed with fly poison.

The town cannot be too careful in this respect. Typhoid, malaria—lots of diseases come from the fly. The owner of live stock should object to protecting the public from the danger he offers. If one does, he should be compelled to give the protection.

Dr. Turlington recently has visited several grocery stores and advised the placing of screens on all doors and windows. The grocers have gladly followed his advice. But millions of flies swarm about any way. The grocers can do little against the stables that send a steady stream of flies their way.

The Chamber of Commerce last night agreed to aid the doctor as much as possible, and Secretary Middle now is planning to put the whole force of his organization behind the movement.

MAJORITY ASSURED FOR BONUS MEASURE

Informal Conferences By Opponents Show Senators Three To One For It

Washington, June 10.—Informal conferences made by leading opponents of the soldiers' bonus bill were said today to have disclosed a Senate majority for the measure of practically three to one. This compares with the nearly five to one vote by which the bill passed the House.

Both sides in the impending fight were understood to have found some satisfaction in the result of the canvasses. Opponents said defeat of any cloture rule to limit debate on the bill practically was assured, while some proponents pointed out that if a three-to-one majority could be held there would be the necessary votes to pass the measure over President Harding's veto, should he disapprove it, as some opponents contend that he will, if passed in its present form.

Thirty Senators were listed as definitely against the amended House bill, with this number possibly to be augmented by one Senator who is absent from Washington and whose position has not yet been definitely established. The thirty Senators were divided 20 on the Republican side and 10 on the Democratic side.

A number of Senators who are counted now as supporters of the bill will join in a fight to amend the bill if this one does not pass. The pending bill is regarded as problematical.

As time goes on we are better able to understand why England was so willing to have Irish settle the Irish question. —Portland Free-Press.
