Digging time for that great potato patch planted by John W. Fitzgerald, and the smaller patches planted by E. M. Mr. Fitzgerald expects to average, better than fifty bushels to the acre on all of his 265 acres and the other fellows will do as well. Markets seem plentiful at this time and several cars of potatoes will be shipped from Dunn today and tomorrow.

FARMERS TO BE PAID FOR CAMP BRAGG LAND
Washington, June 9.—Plans have now been made to provide funds in the next deficiency bill for reimbursing farmers, whose lands were taken over in establishing Camp Bragg. Representative Handmer announced Thursday. He has been at work with Senator Overman for several months undertaking to get the matter settled with the government to relieve suffering.

Land owners in Hoke and Cumberland counties have been waiting three years to be paid for their land. More than a year ago judgment was obtained, and a representative of the War Department settled several of the most pressing claims, but left unsettled at the same time many that were causing trouble. Several farmers who moved out, bought their own land and gave paper for them and have been brought on them to pay up. Red tape has tied the matter between the War Department and the Budget Bureau. It was thought at one time the money could be supplied on pending legislation, but delay has resulted until now a new effort is to be made on the deficiency bill.

IF people were as bad as some people think, there would be a big shortage of angels in heaven.—Harrisonburg Patriot.
