MRS. CLAUDE MORRIS DEAD
On the 20th of August 1922, God in His infinite wisdom saw fit to call to his eternal home the spirit of our sister, Mrs. Claude Norris.
Mrs. Norris was born June 15, 1861. In 1897 she was married to Mr. Claude Norris who lived near Dunn. To this union was born twelve children, eight of whom are still living. Mrs. Norris was the daughter of the late Y. M. Lee who died August 7.
For the last twelve years, Mr. and Mrs. Norris have made their home near Wade, where they have won many friends.
She is survived by her husband, eight children, a mother, four sisters and three brothers.
Since earthly ties are broken let us not murmur, but bow to the will of our Father for our loss is his eternal gain. Her place is vacant, but her influence still liveth. Not only do her loved ones miss her, but all who knew her. To know her was to love her.
A SISTER.

MAIL DOOR-SLOT OR RECEPTACLE REQUIRED
Postmaster W. D. Holland is in receipt of the following instructions regarding the provision of mail door-slots or receptacles by the patrons of the city-delivery service:
"On account of the delays caused to carriers at dwelling houses where no door-slot or mail receptacle is provided, and the fact that a large majority of dwellings are thus equipped already, it seems timely, within a reasonable period to require all who are to receive mail by street carriers at their dwellings to provide such accommodations, the expense of the same being small. Postmasters are therefore thus instructed. The length of notice should not exceed four months, although there may be exceptional cases where postmasters should use reasonable discretion or ask for instructions.

"It is not the department's desire, of course, that any shall be deprived of delivery by this requirement, but rather it is earnestly hoped that all will see the reasonableness of it and its advantage to themselves as well as to the carriers. But if it finally becomes necessary mail delivery will be discontinued where no door-slots (preferably) or mail receptacles, are provided."
The length of notice covering this requirement will extend to January 1, 1923, giving all patrons who have not already provided suitable receptacles, plenty of time in which to do so. It is not the desire that any one shall be deprived of such service and it is hoped that these provisions will be made not later than the date specified.
For any further information pertaining to this matter, enquire at the post-office.

MRS. BUTLER CRITICALLY ILL
We regret to learn of the critical illness of Mrs. Butler, mother of Senator Marion Butler, Major George E. Butler, and Mrs. Sam Howard, of Salemburg. This most estimable lady, it is feared, has reached the end of her long and honorable earthly journey and is soon to be ushered into the abode of the blest. It can be said without contradiction, we presume, that Mrs. Butler has been one of the most useful women that have ever lived in Sampson county. Her removal to the late Mr. Wiley Butler and removal to her husband's home near the present site of Salemburg was possibly the greatest thing that ever happened to that community. But we shall not here and now attempt the tribute due this remarkable woman.

THE GOVERNOR WAS RIGHT
Greensboro Daily News.
Governor Morrison is no more than human—he cannot be always wrong. In ordering troops to Spencer in advance of any serious outbreak we think that he was right, for an ounce of prevention is cases of his sort is worth a ton of cure.
Nor do we think that union men are justified in regarding the move as a hostile one. There are 1,700 men on strike in Spencer; and the union leaders themselves must admit if they will consider the question for a moment, that you cannot collect 1,700 men anywhere without getting a few hot-headed fools among them. The great majority of the strikers at Spencer unquestionably are quiet and law abiding and wish to keep strike itself quiet and law-abiding. These men can be controlled by the union

leaders without the aid of troops—in fact, they control themselves. But there are a few reckless, thoughtless fellows whom the union leaders cannot control; and they are the ones who start mob violence. The presence of the troops will serve to cool them off to a certain extent; and to that extent will protect the good name, as well as the lives and property, of the strikers and the railroad too.
But regardless of what the union men may think of him, the Governor had to protect the peace and dignity of the state; and he was given ample evidence that his peace and dignity were threatened at Spencer. Sheriff Eiker, of Rowan, told him once, last Wednesday night, that if trouble broke out at Spencer the sheriff's office would be unable to handle the situation. The governor at the time did not believe it, and the sheriff said no more—for which no one can blame the officer. But others have come forward with so much testimony to support the sheriff's assertion that the Governor was at last compelled to believe it; and when he reached that conclusion, it was clearly his duty to see to it that the sheriff had plenty of support. How can the strikers blame the governor for that?
The hard, cold fact is that this strike lost public sympathy when the men refused to go to work after the railroad had granted their demands. Labor has as much right to combine as capital; but no more. When capital began to form national combinations in restraint of trade, it went too far. When labor formed this national combination, and began to punish the Southern for the sins of other railroads, it also went too far. Collective bargaining is right, sensible, and just; but collective bull-dozing is wrong, senseless and unjust. The striking shopmen do not even pretend that they are trying to bargain with the Southern; they are merely trying to tie up the Southern to show how much strength they have. That would be wrong were nobody concerned but the railroad. Then to make the helpless, unorganized public suffer even more than the railroad for no other purpose than to show that the unions are all-powerful, is to issue

a challenge to the public. The public of course begins to ask, are the unions so powerful, after all? To ask the question is to answer it; for the public itself has a union—that union is the government, and it is strong enough to wipe any labor organization off the face of the earth.
When the shopmen challenge the public, they invite destruction; and that seems to be what the Southern's shopmen are bent on doing.
