DEMOCRATS WILL WAGE HOT CAMPAIGN

Will Carry State By 100,000-Republicans Hopeful-Director Kobloss Busy

Washington, Oct. 11 .-- Democrata today said there will be more work from the stump than usual, in the campaign now getting under way in state. The big end of the work will be done, however, by home talent. as it is difficult to accure outside speakers. Senator Hefflin has agreed to speak in two or three places and it is now considered possible that Senator Stanley, of Kentucky, and Senator Harrison, Mississippi, will speak in the state during the closing ours of the campaign. The latter is a sort of party keynoter, and both are good speakers.

mocrats appear confident they will carry the state by a hundred thousand majority this fall, the figures being placed at about a hundred and fifty thousand for the Republicans and two hundred and fifty thouand fo rthe Democratic party, Frank Hampton, secretary-treasurer of the Democratic senatorial campaign committee, hazarded the prophecy today that the Republican vote would fall around 75,000 below the 1920 level, and he mays that in no congressional district in the state will the Demostrutie majority fall below 8,000. Mr. Hampton left tonight for New York. where he will confer with a number of Democratic leaders, ospecially from New England.

G. O. P. Is Hopeful

Ralph R Fisher, the Republican candidate in the tenth district, was here recently to confer with leaders

of his party. The Republicans see no reason why they should not give a good account of themselves, or why they should lose propertionately more than the Democrats in the appro ing off year election. Sederal Prohibition Director

Kohlan, of North Carolina, Has for warded to Commissioner Haynes got it.

they and shaminal conci tions which are being peddled by bootloggers in the State. Among other things Director Kohloss states

We are not troubled with makers of hame brew and very little bonded whiskey reaches this state, our main violations being the making of moonshine. This industry prospers on account of the swampy and mountainone nature of the country, although the operations of moonshiners have been lessened to a great extant by the strict methods of enforcement omployed by my agents and the heavy penalties imposed by both state and federal courts.

SEVERAL MILLIONS IN

The balance due has been provided for by the purchase of dollars in the London and New York markets. While J. P. Morgan and compaunderstands that the proceeds of the gold and other credits established here by the British government are to be used in payment of interest on the war loan when it falls due next Monday, they have not yet received definite instructions to that effect,

ANGRY PEOPLE DEMAND MONEY BACK AT FAIR

officials stated today.

The Fair Management Closes Gam ling Joints and Midway Closed Down in Retaliation

Greensboro, Oct. 11 .- A crowd of about 200 people tonight stormed the other of the Central Carolinas Pair ecrociation on the fair grounds here and demanded their money back because of a disagreement between the fair officials and carnival managers resulting in the closing down of the midway. It was necessary to restore order.

The fair officials shut down the concessions at which there was an element of chance, commonly known as gambling joints, with prises won upon the turn of wheel, and the carnival people in retaliation closed every show on the grounds. Then disgruntled people roshed to the fair modiation office and, showing that they had been cheated, called for the price of admission. They dida't
