DEEDS OFFICE SWAMPED WITH EXCESS WORK—REALTY IS ACTIVE

It seems from all prospects that the building program during the year will prove greater than last, and will include hotels, apartment houses, many attractive residences, and business structures for which there now seems to be a crying need.

If one might judge from a hasty trip through Haywood county, practically every foot of land has been subdivided to prepare for residential parks and villa sites as well as large country estates.

That there will be at least ten new subdivisions opened this year, is the prediction of those familiar with version on real estate since Florida capitalists have been acquiring land around Waynesville during this winter.

So keen has been the search for available land, it is said, that real estate salesmen believe it is harder to find property for listing than it is to actually make a sale.

If your subscription has expired you will be cut off without any further notice.

Shakespeare Up-to-Date Tells Motorists' Terrible Toll

SEVEN AGES OF AUTO ACCIDENTS

Per cent of total accidents for each age-group due to auto

SHAKESPEARE'S seven ages of mankind made no reference to the number who were cut off in their prime by automobiles. If he had, suggests the Stewart-Warner Safety Council, it might have run something like this parody on his famous lines:

At first the infant,
Killed by a truck while in his nurse's arms,
And then the careless schoolboy with his marbles,
Playing in the streets after his lessons
Are over. And then the lover,
Absent-minded, walking with a box of candy
Under his arm, to see his loved one,
Is struck by a taxi and hurtled to the ground.
Next comes the gay young blood
Out for his evening's entertainment, whom
Sixty miles an hour lands forty years too soon
Upon a slab in some unfriendly morgue.
And then the banker, full of worldly pride and honors,
Jay-walks across the street between two mighty deals of finance,
And wakes to find Saint Peter quizzing him.
Next, the family man, with years upon him,
Confused and jostled in the crowd,
Missteps, and dies amid thanksgiving
That his last premium was paid up.
And last, hoary age, tottering and feeble,
Perhaps with crutch, or eye too dimmed with time,
An easy victim for some selfish motorist,
Says care, says thought, says skill, says everything—but speed.

The chart above shows what proportion of all accidents happening to each age group are automobile accidents. The toll is highest for the very young and very old. This situation is explained partly by the heedlessness of the young and the infirmity of old age. Moreover, these two groups are least involved in industrial accidents which makes their automobile casualties constitute a larger part of their total accidents.
