COMMUNICATION FROM RAT-CLIFF COVE.

From present indications there will be three aspirants before the voters of the Tenth district contesting for the nomination to represent the Democratic party in the next Congress, and as all of the aspirants are men of high intellectual ability and loyal American citizens, there should be no division in the Democratic party.

As to Mr. Gilkey, we know but very little except what we have learned from outside sources, but from what we can observe from the interest that is being manifested on the part of those who do know him, that he is a man who possesses the necessary qualifications as a representative and if he should be the standard bearer the interest of the people will be carefully and faithfully looked after.

But with Mr. Alley it is quite different. We have known him for twenty years and we have known him to be of the highest type of an American citizen. Born and reared in the mountains of W. N. C., coming from the humble walks of life through perseverance, toil and hard struggles. He has attained the very height of his profession. As a debater he possesses the ability to take care of himself, and the cause he represents, and all matters of reform of what ever nature. He has even been found in the front ranks defending with all his ability the cause for which he thinks would be best for his people. His demeanor and conclusive arguments are of such a character that there is but few that can successfully compete with him either in the lecture hall or in a political campaign. His Democracy has never been doubted, he is a staunch believer of the principles as set forth by Jefferson, practiced by Jackson, upheld by Cleveland, sustained by Wilson. Equal justice to all, special privileges to none, and if he should be the choice of the people as the standard bearer in the next campaign, we have the assurance that the cause of Democracy will be ably defended and the best interests of the party will be carefully and faithfully looked after, and if elected will serve the people with dignity and honor to himself and the people whom he represents.

But when we come to view the entire situation from a business standpoint and consider the great crises the world has passed through in the last eight years, the World War, the most tragic of all wars in the history of the human race and then the reconstruction period that followed has been characterized by a succession of hickering jealousy, turmoils, compassion and strife, yet it is a fact of significance and rare promise that this history making period closes with the triumph of success and encouragement of the U. S. in entering the World Court, which is one of the most important events in the world's history during all these days of tumult, turmoil and unrest. The Hon Zebulon Weaver has been at his post of duty, cool and patient with a level head alert to the best interests of his people as he saw it. His ability as a lawyer is recognized, holding a place on one of the most important committees of the cause he has the confidence of his colleagues in Congress, both Democrats and Republicans, and his constituents at home, any matter of whatever nature it may be, is brought to his attention it is carefully and faithfully looked after. Now as we are launching out into greater things which would be of world wide and national importance, also there is some projects under way and others contemplated which in the Tenth district require national legislation, which if accomplished would be of great benefit to the people. Now would it be commendable or good business to discard Mr. Weaver with his recognized ability? His broad experience, his commanding influence, his faithfulness to duty and elect at this time of great need another man, be he ever so well qualified, without any national experience, with his influence dimmed in the confines of his own district?

WAYNESVILLE MOUNTAINEER.

OPPORTUNITY FOR CRIPPLES.

Through the Orthopaedic Clinic at Waynesville, which meets for the third time on Saturday, February 27, in the New Methodist church, many cripples of this section of the State who have despaired of having their deformities corrected are being provided with an orthopaedic to secure treatment by an orthopaedic specialist that will remove a part if not all of their physical handicaps.

A number of cases are receiving treatment in the clinic through the application of plaster casts, orthopaedic shoes, and corrective exercises. These patients are able to remain at home and come into the clinic each month for observation and further treatment. Those requiring operations are being treated at the Children's Hospital at Gastonia or in a free bed furnished by the Mission Hospital of Asheville.

The Waynesville clinic is a link in the chain of clinics established over the entire State of North Carolina by the State Department of

Vocational Rehabilitation for the purpose of providing such treatment to all of the indigent cripples of the State. No one can estimate the value of this program, not only to these handicapped people themselves, but to the communities in which they reside and the commonwealth as a whole.

Orthopaedic treatment is but the first step in the program of the Rehabilitation Department. After the physical handicap has been removed as far as possible, the department provides a course of vocational training to fit the disabled party for a vocation suited to any remaining handicap, and then aids him in securing suitable employment. Thus he is fitted for an active life of usefulness, supporting himself and dependents, and contributing to the production of his community. From a non-producer and a potential mendicant is evolved a happy, independent and useful citizen.

BANKERS RAISE FUND OF \$500,000 FOR EDUCATION

A fund of \$500,000 to endow scholarships and research in economics in American colleges was recently established by the American Bankers Association in celebration of its Golden Anniversary. The intention of the Foundation is to promote education in the direction of sounder general economic understanding. Half the total sum represents subscriptions by the American Bankers Association, the American Institute of Banking and individual bankers, and the other half quotas assigned to bankers in each state. The Association gave \$50,000 from its reserve funds, and the American Institute of Banking, through individual subscriptions from its members, who are chiefly clerks in the bank, subscribed \$25,000. Numerous subscriptions of \$5,000, \$2,500 and \$1,000 each were made by individual bankers in all parts of the country.

Advanced Six \$1525
4-Door Sedan F. O. B. FACTORY

Now we are inaugurating the first local presentation of these sensational new Nash models—the Special Six 4-Door Sedan and the Advanced Six 4-Door Sedan.

Nowhere can you find more impressive examples of value-giving than these latest Nash achievements—priced at the lowest figures Nash has ever placed on cars of their respective types.

The richly distinctive bodies are identical in design, structure and appointments.

With their luxurious Chase Velmo Mohair seat upholstery and their other select fittings, these cars—the larger at \$1525 f. o. b. factory and the more moderate sized at \$1315 f. o. b. factory—represent the greatest values Nash has ever built.

Furthermore, scientifically engineered motor refinements have endowed them with vastly finer, smoother and quieter performance throughout the entire range of speed and power plus sparkling responsiveness and flexibility.

Both models have air cleaner, oil purifier, and gasoline filter, as well as four-wheel brakes, full balloon tires and five disc wheels, included at no extra cost.
