BOSTON SCHOOL of COOKERY
Tests and Approves

Miss Lucy G. Allen, director of the school, tells her experience with the Perfection Oil Stove.

MISS LUCY ALLEN, director of the conservative Boston School of Cookery, is one of six famous cooks who recently put the Perfection Stove to a rigorous, practical cooking test. Like the other five famous cooks, Miss Allen cooked by every cooking process, and gave us her opinion of the Perfection.

Uniformly Good Results

"I cooked many meals on the Perfection Stove," says Miss Allen. "The results, whether using the top of the stove, the oven, the broiler, or the toaster were uniformly good. There were several features sufficiently pronounced to recommend the stove to the most particular people."

Easy to Work on

"The Perfection is an easy stove to work on. There is no reaching across several hot plates, as there is with a gas or coal range. The flame never varied from the point at which it was set, whether it was low for stewing down pumpkin or high for baking beans several hours."

Clean Kettles

"There was no black deposit on the cooking utensils, even when the high, yellow tipped flame was used for broiling steak."

"The long chimneys burn every drop of oil completely before the heat reaches the utensils."

"We were so well pleased with the 1926 Perfection Stove, both as to results and operation, that after completing the test we kept it to use for auxiliary work in our classes," she concluded.

Tested and approved by the Boston School of Cookery! That means that the Perfection was used under all possible cooking conditions—for slow cooking, for fast cooking; for baking, for frying, and for broiling. In every case it was found efficient.

Six Cooks Agree

The other five famous cooks who tested the Perfection were enthusiastic, too, about the results obtained. And, every day 4,500,000 women get real cooking satisfaction from their Perfections.

See these 1926 Perfections at any dealer's. All sizes from a one-burner stove at \$6.75 to a five-burner range at \$120.00. When you cook on a 1926 Perfection, you, too, will be well pleased with it.

Clean, Even Cooking Heat

The long chimneys of the Perfection burn every drop of the oil before it reaches the kettle. Thus you get clean, even cooking heat free from soot and smoke.

You can be doubly sure of this sort of heat when you use a pure water-white Kerosene that burns cleanly, evenly and without odor—"Standard" Kerosene. It is specially refined.

All impurities that might cause smoke or leave deposits of soot are removed. This assures the maximum amount of heat. By sticking to "Standard" Kerosene you are sure of best results from your Perfection. Insist on it. You can buy it anywhere.
