"Experience is the best teacher"

"That certainly applies to making gasoline. Prominent oil men tell me years and years of striving are necessary before a company can produce a gasoline that gives motorists what they want these days; snappy starting, good pull for the high stretches, lively motor always—all qualities which only experience can teach.

"Take 'Standard' Gasoline. There's fifty-six years of experience behind that brand. And it's the best straight gasoline you can buy. Always dependable—obtainable everywhere."
