**Keep in Trim!**

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Ask your neighbor!
