Mr. and Mrs. Cleveland F. Kirkpatrick left Wednesday by motor for a several week's trip to Atlanta, Ga. Mr. and Mrs. Kirkpatrick will also visit friends and relatives in Griffin, Ga., and Chester, S. C., before returning home.

**USE NEGLECTED ASSET SAYS SOUTHERN FIELD.**

Washington, D. C., Oct. 4.—As issue of The Southern Field, just published by the Development Service of Southern Railway System, is devoted to the agricultural and horticultural upbuilding of the South.

Its most important features are an editorial and an address by Mr. Roland Turner, General Agricultural Agent, Southern Railway System, directing attention to the opportunity to put graduates of southern agricultural schools and colleges on farms. At present a very small proportion of these trained young men become dirt farmers for the simple reason that the great majority of them lack sufficient money to enable them to take over a farm and run it in the way that they have been taught farming ought to be done. It is suggested in the Field that organizations or individuals can do real constructive work in their communities by preparing groups of attractive farms and offering them to these splendidly equipped young men on terms that will enable them to pay out and own unencumbered farms.

This issue also includes articles on Southern Horticultural Development; on Southern Apples, with special reference to marketing advantages and freight rates as compared with Western apples; on Opportunities for Growing Grapes in the South; on Profits from Sheep, with special reference to spring lambs; on Dairy Cows and Poultry; on Hauling the 1926 Peach Crop to Market; on Asparagus as a Profitable Crop; and on a remarkable transportation record made by Southern Railways in Handling Mules for the Spanish Government.

**HON. FELIX ALLEY TO START SPEAKING CAMPAIGN.**

Hon. Felix Alley is starting his speaking tour and the Democratic campaign for the Tenth Congressional district race for the election of the nominee, Zebulon Weaver, beginning at once. He speaks at Murphy on Friday night, October 22nd. At Andrews, Saturday, 23rd. At Sylva, Monday, 24th. At Cullowhee, Tuesday, 25th. At Franklin, Saturday, 16th. Waynesville, Saturday, October 30th.

Authentic reports recently published state that 40,000 deaths each year are traced to diseases transmitted by flies. Health organizations everywhere are advocating the use of Fly-Tox. It has a pleasant odor. It is harmless to mankind and animals. It will not stain. Get Fly-Tox from your retailer, always in bottles with blue label.

(Continued from Editorial page)

manages of the Goodwill Tour. That the women of the Land of the Sky party are having a good time seemed a fair prediction since men predominate in the ratio of 65 per cent to 35 per cent. Dancing in the club car and the observation car to the music of big victrola is a nightly feature of the tour, and thanks to the majority of the male sex among the travelers there no wall flowers in the group.

**Prominent Men Also Arrive**  
Male celebrities abounded in the group. Prominent among them was Col. Thornwell Haynes, representing the Federated Chambers of Commerce of Western North Carolina, who was for 17 years in the diplomatic service of the United States. This interesting globe-trotter, who is to be the radio speaker at the Congress Square Hotel this evening when there is a brief broadcasting from the Land of the Sky special, has been around the world eight times. He has been consul, consul general, diplomatic commissioners and minister in various foreign countries, his service having taken him to France, Switzerland, Finland, Russia, China, Japan, and the Straits settlements. He is also a well known educator, and was formerly president of Birmingham College, Alabama.

**Dr. Brooks is Toastmaster**  
Dr. E. C. Brooks, president of the North Carolina State Agricultural College, was another prominent member of the group. He it was who acted as toastmaster at an informal luncheon on the State pier which followed the arrival of the Carolina party, calling upon several leading North Carolinians to reply informally to greetings conveyed them by Neal W. Allen, chairman of the Portland City Council, Chester A. Jordan, president of the Portland Chamber of Commerce, and Henry F. Merrill, chairman of the State pier directorate, who not only welcomed the visitors, but also spoke briefly of the State pier and its facilities and of the volume of business transacted by the Port of Portland. A tour of the various sheds at the pier preceded the luncheon, and during this tour Mr. Merrill also explained the operation of various features of the pier. Howard D. Ferris catered for the luncheon, which included chicken salad, various cold meats, that typical New England dessert, apple pie, ices and coffee.

**Alley Has New Suit**  
During the luncheon hour Mayor John H. Cathey of Asheville presented to Chairman Allen of the City Council a suit of Biltmore homespun made at the famous Biltmore plant at Asheville instituted by the late George W. Vanderbilt and later taken over by E. W. Grove, owner of the world famous Grove Park Inn. J. G. Stikeleather, highway commissioner for Western North Carolina, who supervised the building of 7,000 miles of good roads in his section, 3,000 of which are hard surfaced, was prominent in the Asheville party, and local men fell at once into a discussion of road problems with him.

**Social Service Expert Member**  
Pleasantly met by the Portland party was Dr. J. S. Williams, a religious and social service worker of Western North Carolina, and evidently a much beloved member of the group, who is the official chaplain of the party. The youngest of the North Carolina travelers is Betty Rowland, the five-year-old daughter of W. T. Rowland, a well known Asheville real estate man, who is the pet of the entire group. A golden-curled, blue-eyed young charmer, she was very much in evidence, and was an interested observer of all proceedings.

Everybody on the trip was greatly enthused over the cordiality of the reception which has been given thus far on the journey. The travelers spoke when they first arrived of the special courtesy shown them by the City of Toronto, but were quick to predict that the cordiality of Portland's welcome bade fair to equal if not to exceed Toronto's. Glad to Return to States  
Humorously they called attention to the fact that the party arrive from Canada intact, but added more seriously that in spite of the warmth of Canada's welcome everybody was glad to be back in the States again.

The Land of the Sky party on all its Goodwill tours is limited to the present figure so that it may not be necessary to carry more than five pollmans. A special representative of the Canadian National Railways, Malcolm H. Woods, accompanied the party through that part of the journey which was over Canadian National lines, and arrived in Portland with the group this noon, while George A. Harrison, general passenger agent at Portland, was on hand at the Grand Trunk Station to greet the arrivals.  
Appreciate C. N. R. Service

"The Canadian National has been mighty nice to us," said Mr. Topping, the publicity man. "It has even stopped trains to allow reporters to send news dispatches, which I think is a unique record."

Representatives of the local Chamber of Commerce were much interested in talking with Asheville men about the success with which that city, with its population of only 57,000, raises a budget of \$125,000 for the support of its Chamber of Commerce.

Of this \$152,000, \$100,000, is expended for publicity, and of this sum 75 per cent is obtained from a publicity tax of one-tenth of one per cent on the valuation.

**No Difficulty in Legislation**  
"Didn't you have some difficulty in getting that publicity tax passed?" was one of the local queries.

"Not at all," was the response. "The question was put up to the people at an election, and out of 2,800 voters cast on the question there were but three of negative character."

The remaining 25 per cent of Asheville's publicity fund, so Chamber of Commerce representatives said, is obtained by subscription from hotels, real estate men, and others directly interested.

The investment for publicity has been most successfully expended, according to Mr. Miller, secretary of the Chamber, the record of queries for the first 20 months as a result of the publicity program being 72,000. "The number of inquiries received and answered in September," Mr. Miller added, "was 6,812, so that we will greatly exceed the first twenty months' average."
