

NASH

Leds the World in Motor Car Value

A NEW Instrument Board and Greater Front Compartment Convenience

New Nash Attractions
 7-bearing crankshaft motor—world's smoothest type—powers all new Nash models.
 New-type crankcase "breather" which prevents crankcase dilution.
 Rubber insulated motor supports—(standard Nash practice for some time).
 Motor heat control by new thermostatic water regulator.
 Oil screen "agitator" preventing oil coagulation in coldest weather.
 And many other new improvements.

One of the many outstanding advantages offered by the new Nash models is found in the arrangement and appointments of the roomy front compartment.

There is an attractive new instrument board with all instruments compactly assembled in a single panel under glass, indirectly lighted.

Further forethought for the driver is shown in the way Nash has located the lever control of the new double-beam headlights on the steering wheel at your finger tips.

Come and see the new Nash models and examine their numerous other new features.

JUST FACTS NOT THEORIES.

The August issue of "The City," published by the San Francisco Bureau of Governmental Research, contains an analysis of the operating statements of the municipal revenue of \$3,413,875, the railway, for the year, shows a book profit of \$21,395.

If this municipal system had paid taxes in proportion to the privately owned street railway in San Francisco, the expense of operation would have been increased \$324,910, and the municipal line would have shown a deficit of \$303,515 for the year.

San Francisco's municipal railway simply divides the business, and the general tax payers has to dig up the \$324,910 annual tax bonus which it is granted.

The fares on the municipal line and the private line are the same. So far as a disinterested visitor to the city can see, the service on the two lines is the same.

Figures just published by the State of California, show the total bonded indebtedness of all forms of government in California to have increased \$49 per cent since 1911, while during the same period, the assessed value of non-operative property which is liable for the interest and redemption of bonds increased 100 per cent. San Francisco's municipal railway venture and every municipal undertaking in all other cities and town in California, are included in the bonded debt increase of 549 per cent.

The situation in California is little different from that in other states. The more public borrows to maintain and operate tax-free industrial instead of encouraging private enterprise, which pays taxes, the higher mounts the permanent obligation which the taxpayers must meet.

ADMINISTRATOR'S NOTICE.

Having qualified as administrator of the estate of J. H. Burnett, deceased, late of Haywood County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 2nd day of October, 1927, or this notice will be pleaded in bar of their recovery. All persons indebted to the said estate will please make immediate payment.

This the 2nd day of October, 1926.
 ODER F. BURNETT,
 Administrator of the Estate.
 11 Nov. c J. H. Burnett, deceased.

more food space

FACTS
 This is one of the reasons why there are more Frigidaire electric refrigerators than any other brand. Add these facts to other advantages.

FRIGIDAIRE provides greater food space than other electric refrigerators of equal size. This is because the highly efficient and economical frost coil, an exclusive Frigidaire feature, occupies less space than the brine tank previously used, permitting greater food storage capacity in a cabinet of any given size. Larger supplies of perishable foods can be carried at one time.

Greater food capacity, quieter operation, freedom from vibration, lower operating cost, a wider range of models, the more precise engineering and manufacturing methods of General Motors, greater beauty of design, proven dependability in service—these are the things that have made Frigidaire the choice of the overwhelming majority of users of electric refrigerators.

Every Article of Men's Wear In This Store Is An Extra Value

WE MAKE THIS STATEMENT WITH A TWO-FOLD CONVICTION THAT IT IS RIGHT—

We assure ourselves of the standard quality of each item before we stock it. The same men come here year after year for their clothing needs, because they feel that they are getting better value for their money. Why don't you take the time, say within the next week, to find out about this better Clothes Service? It may save you many dollars, and give you greater Clothes Satisfaction.

DROP IN TOMORROW OR NEXT DAY

"Curlee Clothes"

When You Get Ready to Buy Winter Clothing Come Here and See

how well we are ready to serve you. To begin with, we believe you will find it easy to get more dollar for dollar value for the money you spend, and on top of that, you can be certain that the style of each item purchased is just what would win the approval of well dressed men everywhere.

When You Select An OVERCOAT

Here You Know It's Right In Style

Furthermore, you are assured that it is right in quality, right in tailoring and right in price. Plenty of real snappy styles for young fellows, and an ample assortment of more conservative models for those who prefer them.

"Down In Frog Level" "RIPPETOE" Waynesville, N. C.

THE ENGINEER AND HIS WATCH cannot go wrong—too much depends on both. If your watch is "out" even a minute or two, if it loses or gains time each day in the week, bring it to us for expert adjustment and repair. It pays to be on time.

DRIVE THE CAR!

Only those who have driven a Dodge Brothers Special Sedan—or any Dodge Brothers car BUILT RECENTLY—can fully appreciate all that Dodge Brothers have accomplished during the past few months.

So swiftly has improvement followed improvement, that today the car, to all intents and purposes, is a different and incomparably finer vehicle.

The announcement of smart new body lines and attractive color combinations first attracted general favor. But since then, improvements even more fundamental have been accomplished mechanically.

Drive the car NOW! Observe its impressive new silence, smoothness and elasticity of performance, and you will then begin to realize just how vital and varied these and other later improvements actually are.
