

ADMINISTRATOR'S NOTICE
 Having qualified as administrator of the estate of Samuel Chambers, deceased, late of Haywood County, North Carolina, this is to notify all persons having claims against the estate of said deceased to exhibit them to the undersigned on or before the 28th day of October, 1926, or this notice will be placed in bar of their recovery. All persons indebted to the said estate will please make immediate payment.
 This the 28th day of October, 1926.
 R. C. CHAMBER,
 Administrator of Samuel Chambers, Deceased.

GETTING UP NIGHTS

For Bladder Relief in Nature's Danger Signal, Columbus Minister's Wife Relates Experience.
 Rev. W. H. Mitchell, 924 No. Park St., Columbus, Ohio says: "My wife was troubled seriously with bladder irritation until we used lithiated buchu (Keller Formula). She would have to get up 6 to 8 times each night. Will gladly answer any letter."
 Lithiated buchu acts on the bladder as sperm salts on the bowels. Drives out foreign matter and decreases excessive acidity, thereby relieving irritation. The tablets cost 3c each at all drug stores. Keller Laboratory, Mechanicsburg, Ohio.

Saxophones Used in Fight on Devil

The saxophone—"instrument of the devil"—is being enlisted by the churches in their fight on the devil. It is indicated in advices reaching the Conn Music Center, Elkhart, Ind. All saxophone quartettes and sextettes in church and Sunday school are among the "devil's own weapons" being used to win folks over to religion.
 "Not so long ago it was quite common for church people to shun the mention of saxophone, let alone go to hear one played," says James F. Boyer, supervisor of the Conn Music Center. "The sentiment seemed to be, even among musicians, that the saxophone wasn't much good for but jazz, and for a while it did appear that the jazz artists were the only ones to recognize and make use of this comparatively new addition to the brass instrument family. Reports now coming in here, however, indicate a changed attitude on the part of the public. Artists know that the saxophone tones come nearest of all others in resemblance to the human voice, and recognize that there is nothing so beautiful musically as a saxophone solo. H. Benne Henton, one of the greatest living masters of this instrument, claims that no cleaner, more elevating or inspirational music can come from any instrument, and will not play anything that has the slightest taint of jazz in it. Saxophone quartettes and saxophone sextettes are winning a place for themselves in churches, especially those that cannot afford a pipe organ, and other churches have found that the appearance of an orchestra at church functions invariably draws increased attendance. This is indeed fighting the devil with his own weapons."

MUSICAL BUMP

The public school band movement now sweeping the nation is developing for America a "musical bump" that will even rival that displayed by the most colorful and tune-loving countries of the Old World, according to Frederick Nell Innes, internationally famous bandmaster of the 80's and now head of the Conn National School of Music, Chicago.

"The time is near at hand when even the smallest of communities will have its band," says Mr. Innes. "And they will be capable organizations, too."
 "Never has there been such an indication of a widespread interest in band music. A school is as proud when their band wins the state championship as they are when their football eleven cleans up on every other aggregation in the section."
 "The students are seeing music not only as a cultural pastime, but as the possible key to a remunerative profession."

"It is time the tide was turning. A year ago the average American spent but 10 cents on hand music, while \$1.50 was being spent on pianos, and \$1 on talking machines. These figures are due for material changes, and it will be the boys of the land who will change them."

Music for "Sissies"?

Listen to These Boys
 Elkhart, Ind.—The age-old contention that boys consider music as something for "sissies" is exploded in a survey brought to light by the Conn Music Center here.

More boys want to study music than do girls, questions put to 5,000 children between the fourth and ninth grades revealed. Forty per cent of the boys announced a willingness to study music if given an opportunity. Thirty-seven per cent of the girls manifested interest.

Parental influence was seen in the fact that while only 18 per cent of the musically interested expressed a preference for the piano, 50 per cent were studying that instrument. Only 12 per cent were interested in the violin, yet 29 per cent were taking lessons on the bow and fiddle.

The saxophone, the banjo and the cornet took honors for preference among the boys. None studying these instruments was dissatisfied. Among the extremely young boys the lowly harmonica ranked high.

To Spend Half Billion on 1926 Music Lessons

Elkhart, Ind.—Half a billion dollars will be spent by Americans for music lessons between now and next June, it is estimated by the Conn Music Center. The estimate is based on a statistical study by J. P. Blake of St. Louis.

According to Mr. Blake, there are 250,000 teachers of music who regularly practice their profession in the United States. These teachers average 20 pupils each. Allowing an average of two lessons a week for each student for the 25 weeks between now and June, means a total of 250,000,000 music-lesson hours, which at the average fee of \$2 per hour, brings the income of the music teachers up to \$500,000,000.

Expert Watch Repairing

"WHAT IS WORTH DOING AT ALL, IS WORTH DOING RIGHT"—OUR WORK IS GUARANTEED
 Kodaks, Jewelry, Cut Glass, Silverware, Clocks, Watches, Specialty Work, Kodak Finishing, Repairing.
 We have a large and attractive stock of novelties, etc.; Pook Ends, Purses, Handbags, Compacts, Vanities, Perfumed Lamps, Hand Painted, and a beautiful assortment of Gift Handkerchiefs; Also gifts of all descriptions.

Three Recent Noteworthy Improvements Await Your Inspection

Improvement A

—has resulted in a smoothness of engine operation that will prove a genuine surprise as soon as you take the wheel.

Improvement B

—has given the car a quietness of operation most unusual in cars of this type and price.

Improvement C

—has added to the car's durability and dependability—qualities which have always set Dodge Brothers Motor Cars apart.

The car must actually be driven to appreciate the far reaching importance of these improvements.

We urge you to make this personal test at the first opportunity.

Standard Touring Car	\$ 897.00
Special Coupe	1,048.00
Special Sedan	1,105.00
Special Roadster	995.00

Keeping up with the South

THE growth of the South in recent years is one of the outstanding developments of the nation. It is seen by the following facts:

In the 15-year period, 1910-1925, the coal mined in the states of the South served by the Southern Railway System has increased 65 per cent; the pig iron production increased 14 per cent; active cotton spindles increased 53 per cent; and the total value of mineral production increased 205 per cent.

In the two decades, 1900-1920, the value of farm property in these states increased from approximately \$2,500,000,000 to more than \$10,000,000,000.

And in the 20-year period, 1904-1923, the value of all manufactures produced in these states increased from about \$1,200,000,000 to almost \$5,000,000,000.

Such has been the growth of the South. The growth of the Southern Railway System in the same period also is impressive.

In the last twenty-five years the total investment in the Southern Railway System has increased about \$375,000,000—from \$400,000,000 in 1900 to \$775,000,000 in 1925.

The total freight traffic handled by the Southern has increased about 50 per cent.

The ability of the Southern Railway System to supply adequate transportation to the growing South has been a vital factor in the healthy economic development of the states served by the Southern.

Every day on the Southern about 8,000 carloads of freight are handled over to it for movement.
