The Greatest Victory—He that is slow to anger is better than the mighty; and he that ruleth his own spirit than he that taketh a city.—Proverbs 16:32.

#### HAYWOOD COUNTY AT THE FRONT

For many years this county has been working steadily and quietly along agricultural and stock-raising lines. Little was said to the outside world what Haywood county was doing, but now the entire state is looking to this county as one of the leading counties along these lines, especially stock-raising.

Not only has the agricultural and stock-raising caught the eye of the public but industry has forged ahead and now we are proud to say that Haywood is also one of the leading manufacturing counties west of the sand hills.

This distinction has been made possible only through the ability of the leaders to see ahead and set their goals far enough from their past records to give them something definite to work toward. It is the duty of every citizen of Haywood to back these leaders and help them make his county out rank any similar county in the state and not only the state but the entire South. It can be done, we have the natural resources here. We have the blessings of nature on every hand, the rest is left to us. Now that we are ahead in a few let's get ahead in many things.

The Brevard News realizing the value of such distinction as Haywood now has published the following editorial last week:

"The Waynesville Mountaineer and The Canton Enterprise have been telling in recent issues of the carload after carload of cattle being shipped from Haywood county to the markets of the world. Huge amounts of money have been pouring into the pockets of the farmers and stock men of that county.

"The Marshall News-Record now comes along with the statement that 'More than \$42,000 worth of cattle have already been sold in Madison county, and adds the fertile justified boast that the season is not yet ended, and many more carloads will be shipped from old Madison county.'

"Neither of those counties are as well adapted to stock raising as Transylvania county. Some of the der citizens here recall the days when carload after carload of cattle were shipped from this county, and those days the farmers had money, and plenty of it. 'These mountain ranges ought to be turned free for stock ranges. Thousands of acres of land lie within this county's borders that would provide range for amberless cattle to roam and grow fat, thereby being prepared for market at the least possible cost to the owners.

"Let's get back to stock raising, like the men of old used stock here and shipped it away, receiving in return much new money from outside sources."

#### WAYNESVILLE MUST BE KEPT CLEAN

Since the suspension of the city trash truck Waynesville will have the tendency to let trash and rubbish accumulate on the streets and public places. This must not be the case. Some plan will have to be worked out whereby Waynesville will continue to have the reputation of being one of the cleanest towns in Western North Carolina.

One reason the truck was discontinued was because of the expenses. Then too, some people were of the opinion that their taxes should not help pay for hauling other people's garbage off, when they were paying individuals to remove theirs. With all these different angles facing them, Mayor Howell and his board of aldermen decided the only thing for them to do was to discontinue this service.

The city officials are to be commended for his act, although the beauty and health of the city were at stake, but discord was among the citizens and the Mayor and his aims were to lease, regardless of their personal feeling in the matter Mayor Howell and the aldermen realized that when it comes to spending other people's money that it is rather difficult to satisfy everyone.

The city officials do not want the people of Waynesville to be without facilities to dispose of their trash and will take under consideration any suggestions that the citizens of Waynesville have to offer. The Mountaineer suggests that the citizens having garbage to haul from their homes or places of business be the ones that pay for this service and not tax the people that have their own facilities for removing garbage. This could be easily done and not be a burden on any one.

The town of Waynesville will furnish a truck and supervise the gathering of this garbage if the citizens using this service will pay the men and up-keep of the truck. Under the existing circumstances what better plan could the city

offer?

There is a town ordinance that forbids the burning of any trash in certain districts of the city, so just as a suggestion to anyone thinking that burning their trash will be cheaper than paying to have it hauled away, stop and realize that a \$50 fine can be imposed upon anyone breaking this ordinance.

Now is the time we must cooperate with the city officials. This is your town and your wants and desires will be carried out as far as the finances of the city will permit. The citizens of Waynesville can rest assured that the city officials are not going to take any chances in jeopardizing the credit of Waynesville.

Let's keep Waynesville clean and keep it a city that we can point to with pride.

#### SAVE THE LEAVES—THEY ARE WORTH MONEY

The people of Haywood County are burning many dollars worth of valuable plant food (leaves). They are being raked into piles and burned, while lean spots in the garden and fields are simply crying out for humus. Let's stop this dangerous wasteful and unwise practice. Make use of the leaves this fall, and by all means do not burn them.

#### FAITH IN NORTH CAROLINA

At a time when many business concerns are slowing up their activities and curtailing in every possible way it is refreshing to find an organization that is not afraid to undertake a big program of expansion. The announcement was recently made that the Champion Fibre Co., at Canton plans a million dollar expansion program, extending over about a year, to start immediately. Three large buildings will be erected and \$500,000 worth of new machinery installed. Not only will the construction work furnish employment for workmen, but the expanded plant will continue to furnish jobs to men. It doubtless took courage to go into a big undertaking of this kind. One of the most encouraging notes of optimism we have discovered anywhere was contained in the statement made by the president of the company, Mr. Reuben Robertson, in announcing the plans for expansion, in which he said:

"The decision to go ahead at this time may be properly interpreted not only as an expression of confidence in the ultimate restoration of normal business conditions in the country but especially as an expression of faith in the people and in the industrial opportunities of North Carolina and the South."

That's the sort of spirit it takes to pull out of this depression. We trust more industrial leaders throughout the State will follow Mr. Robertson's fine example. —Morganton News-Herald.

#### GO TO SUNDAY SCHOOL SOMEWHERE SUNDAY

We wish the people of the churches would inaugurate a campaign for increase in Sunday School attendance. There is no finer training ground for life's work anywhere than that found in the Sunday School. There is something pathetic in the sight of a man or woman idling about on the streets or country roads during the Sunday School hour on a Sunday. Such a person is missing so much real enjoyment and beneficial influence that this loss constitutes a real hazard in that person's life.

Suppose we have banners made, cards printed, and even buttons like they use in political campaigns, with the words: "Go to Sunday School Somewhere Sunday" printed on them. Do you not think it would have great influence in the matter of increasing Sunday School attendance? If people who profess to be Christians would work as hard for the Sunday School and church as they do for their favorite candidates along about election time there would be a different condition existing in this good old country of ours. Constant attendance at Sunday School will actually lead a man into active church work and Christian activity.

Go to Sunday School Somewhere Sunday.—Brevard News.

#### WORD OF ENCOURAGEMENT HIS LAST PUBLIC SERVICE

In paying a last tribute to the late Thomas A. Edison, nothing more impressive can be said than to repeat what was probably his last public statement, flashed by radio from his laboratory in Fort Myers, Florida, to the National Electric Light Association last summer, at Atlantic City. His words, which follow, show his interest in humanity which he had served so long and faithfully. In these difficult times they should be engraved on the consciousness of every American citizen.

"My message to you is to be courageous. I have lived a long time. I have seen history repeat itself again and again. I have seen many depressions in business. Always America has come out strong and more prosperous. Be as brave as your fathers were before you. Have faith—go forward."—West Asheville News.

#### THE REAL REMEDY

The columns of the daily newspapers are filled these days with accounts of where men and women have taken their own lives. During the past two weeks two leading men of Albemarle blew out their brains, both of them right in the prime of life. All these things cause a thinking person to pause and consider. We are passing through terrible times. The storms have hit us. And woe to those barques which are caught out of harbor and without anchor. In nearly every case it means destruction. But the men and women who are anchored by a firm faith in the Almighty — those who believe in the eternal justice and love and mercy of an all wise Ruler, and who are willing to do their best storm and come through, through torn and maybe and leave results to Him — those will weather the storm and come through, though torn and maybe crippled, with faces to the front and with flying colors. Suicide will too often be the resort of those caught in the gale without anchors.

"Come unto me all ye that labor and are heavy laden, and I will give you rest," said the greatest teacher this world has ever seen, and whose teachings have revolutionized a world in two thousands years. That same invitation is held out today to those who appear to be at the end of their row. And no man in two thousand years has risen up to say that he accepted that great invitation and was turned down, or disappointed. —Mocksville Enterprise.

# Get here on the run!

We've just cornered a flock of the choicest corn fed, dry picked, young turkeys. What do you say we dress a 10, 12 or 14-pounder for your Thanksgiving feast?

Also hens or fryers, select Norfolk native lamb pork and veal, sugar cured and boiled ham, fancy prepared meats, pure pork sausage, pickles, olives relishes, meat sauces and spices. VISIT OUR MARKET DEPT. FOR ANY AND ALL YOUR MEAT DISHES.
