### Quality Bright For Coming Poultry Year

The most important factor in the success or failure of the coming poultry year is the baby chicks to be hatched or purchased. "The present days poultryman, whether engaged in the business commercially or simply as a farm flock owner, or whether he is new to the business or has had years of experience, must give attention to the quality of his baby chicks," says Roy S. Dearsyde, head of the poultry department at State College. "If these chicks are not of proven stock, no amount of expensive equipment, care in feeding or careful management will put this quality into the birds. It must be transmitted to them by the parent stock."

By quality, Prof. Dearsyde points out, he means that the chicks be from flocks of high vitality, carefully chosen for production and conformation to the standard of the breed, and from blood-tested parents, if possible. Such chicks are to be found only in hatcheries which have a carefully chosen source of supply, or from flock owners who have proven themselves capable of developing such chicks. Dearsyde looks for an increase in poultry growing in North Carolina there will be a demand for baby chicks. Some will purchase on a price basis without regard for quality and bring disease and low production into their present flocks. Some will be misled by enticing advertisements and will order without first investigating the conditions. It would be wise, think the poultryman, for those who contemplate buying from outside North Carolina to first take up with state, the status of the source of supply.

## A small but Important Part on the Family Budget

Frequently people who come to the telephone office to get a telephone, tell us they have found that there is no saving in trying to get along without the service. Its many advantages, they say, far outweigh the small cost. Doing without telephone service they explain, hampers the social activities of the whole family and restricts the opportunities to enjoy life. Trying to do without a telephone had resulted in gaining a more appreciative understanding of the true value of the service. So they arranged the family budget to include telephone service. The advantages of a telephone in the home are numerous and the cost so very small that it really doesn't seem to try to do without it.

**HELLO FOLKS!** I've been asked to write a little speech for you. Believe me or not, I will not receive a cent for it, but I do want it to direct your attention to Bon Marche, Asheville's Quality Christmas Store. I'm glad to write you, because after all I'm only a woman and love to talk about my favorite store. Ever since I can remember, my mother has been taking me to Bon Marche (because that is her favorite store, too) and of all the times I believe I'm enjoying this Christmas season most. If your family is like mine, Christmas is apt to be a big item. But Mother says it isn't so difficult at Bon Marche. There are gifts for Dad, for Brother and Older Sister — gifts for all the uncles, and aunts, and grandparents — gifts for Mother's friends and Dad's business associates. Mother says she's found things so modest in price that she's been able to slip in some extra gifts for herself and me. And of course, I like that — but here's what I started to say — Christmas is only a few days off, and if your local merchant hasn't it, come over to Asheville and enjoy shopping in Bon Marche.
