preventing disease but also as a measure which inspires public confidence, thereby leading to a higher milk consumption, a result which all health workers desire. But disease prevention is only one aspect of the subject. Clean milk is also a necessity and clean milk is that which has a small number of bacteria present in it. Unclean utensils, the entrance of dust and manure, and storage at high temperatures, all directly affect the bacterial population. Large numbers of bacteria also cause quick souring and bad-tasting milk.

Milk sanitation then has two objects: the production of safe milk and the production of clean milk. The essentials to attaining these objectives are given below.

1. Healthy Cows—This implies freedom from tuberculosis and other freedom from tuberculosis and other specific diseases, also infection of the pus-forming bacteria in the milk.

2. Clean and Healthy Workmen—The freedom of dairymen from communicable disease is of vital importance.

The present manager has the most prominent dairy in this part of the state. Its place is modern and up-to-date in every particular, clean and sanitary throughout. The business is conducted along progressive lines and we are glad to say that this dairy is a credit to the community.

This is a local dairy with the interest of the home and country at heart and it should receive the consideration of all the people in this section. Fair and straightforward in their dealings, it is not strange that so many people are complimenting this dairy.

A visit to the dairy is very interest-

ing to the uninitiated. Their business has increased so rapidly that improvements have been made from time to time until today they have a modern dairy.

Everything in the dairy is kept scrupulously clean, as it is the policy of the institution not only to produce milk and cream that will pass inspection but to turn out products that are as near an approach to the acme of perfection as modern machinery and up-to-date methods will permit. Many mothers of so-called bottle-fed babies highly praise the energizing contents of this dairy's milk.

Smathers Dairy has been closely allied with the business interests of this section of the state for some time and has been instrumental in the upbuilding of this section of the county, and the institution should receive the patronage of the entire people.

Nantahala Hardware Co., Inc., is one of the most prominent hardware stores of this part of the state. Carries a complete line of high grade hardware, and is paint headquarters and carries all that pertains to an up-to-date store.

It is without doubt necessary that an immense stock of goods be carried by the hardware dealer who wishes to be successful and keep pace with the demand of his customers. In this present day hurry and rush the patron demands that his call for a nail or a screw be given the same careful attention as though he were buying a bill of hardware.

At this popular establishment particular attention is given this feature. They will be pleased to welcome all patrons. As the store has a stock that comprises thousands of every necessary article it can readily be seen that hundreds of people are continually visiting this store.

This market is a place where quality, service and satisfaction meet and where people from the surrounding territory go to find the perfect provision center. It is excellently located and is a place where one can park, have the car loaded and drive away, not being inconvenienced by traffic jams.

This up to date market, seeing the drift of trade from the congested area, has established a market that is gaining in patronage every day and now is so busy that all goods are turned quickly, which means for both lower price and newer and fresher stock.

This vast volume of business enables them to better deal with the wholesale firms and accrues to the benefit of the public.

This market strikes the keynote in modern life as people do not want to spend all their money they take

in for meals and provisions, but want to have money left for other pleasures of life.

Those who trade here have found that they are able to save much on their market bills and if properly put away it will, by being saved net them a handsome sum over a length of time. The prices are a result of lower overhead, closer buying, doing a large business, and making small profits on each sale.

The service at this popular market is very pleasant and efficient.

In this review we are glad to compliment them as people who make a continued study of the food problems of the day and on conducting a market that is in advance of the times. We would advise anyone having trouble with the food problem in any way to visit the City Market and make the family happy by furnishing them with pure food and well balanced meals.
