**VOTE FOR  
LUCIUS LINER  
FOR  
TAX COLLECTOR**

**He Did Not Call The Second Primary First—He Did Not Receive Credit For All Votes—He Is Entitled To Another Chance—**

In order to clear up a few misleading ideas, we the friends of Lucius Liner, want to make the following statements:

Mr. Liner called a second primary only after he was assured that Cameron Morrison had called one for the state. Then Mr. Liner gave notice that he wanted to contest the race for Tax Collector, which did not cost the voters of Haywood County one twentieth of a cent for the second county race.

Mr. Liner also got more votes than was first credited to him. The first figures given out only gave him

365, but the official count showed over three times that amount. His opponents, we believe, used this in order to show that he was unpopular. The official count shows that he was popular, and his past reputation shows that he is thoroughly capable and worthy to hold the office of Tax Collector of this county.

Before you vote Saturday, get all the facts in the matter, and we feel that your conscience will not let you vote for anyone else to represent your county in the office of tax collector but Mr. LINER. A MAN WORTHY OF YOUR VOTE.
