Q. Is it dangerous to use canning powders to preserve foods? I have heard that food canned with acids in the shape of powder will not spoil.

Ans. Canning powders are not wholesome and may cause serious digestive troubles, but, if by dangerous you mean that canning powders will cause death, then we would say "no" to your question. The simple way to can fruits and vegetables is by the hot water or steam pressure method and any person is advised to leave canning powders out of the plan and depend on heat raised to boiling temperature to sterilize fruits and acid vegetables and steam under pressure to insure the keeping of meats, peas, beans, corn, and similar vegetables.

D. O. K. K CEREMONIAL TO BE HELD FRIDAY

All plans are now complete for one of the most colorful ceremonials ever staged by Bagdad Temple of the D. O. K. K.'s to be held in this city Friday afternoon and evening of this week. Local committees who have been at work on the affair say that the attendance promises to be the largest in the history of the Temple ceremonials and the Waynesville members who are to be hosts to the visitors on that occasion are leaving nothing undone for their pleasure and comfort.

Bagdad Temple comprises the territory west of Charlotte, Headquarters of the Temple are in Canton. There is a club in Waynesville, where a large number of members live. Porter Henderson of Canton is Royal Visor and A. P. Ledbetter of Waynesville is Grand Ehmir.

Promptly at three o'clock registration headquarters will be opened at the Christian Adventure Assemblies.

A fine spirit is evident in all of the organizations and activities under way and a good season from every standpoint is predicted.
