

CRIME CRUSADE ORGANIZED SATURDAY AT LAKE

Dr. Sunday, Of New York, Brings Stirring Message On Crime Wave.

Resolutions, adopted at Lake Junaluska Saturday by a group of Methodist leaders, call upon every spiritual and educational agency in the Methodist Episcopal church, South, to assist in an anti-crime crusade by presenting a solid front against flagrant organized crime and by grounding their attack in constructive work through the home, the school, and the church.

Three-Day Discussion

The resolutions were adopted after a three-day discussion in which the queries "Is it so?" and "If it is true, what can we do about it?" were uppermost. The three-day discussion followed a platform address by the Rev. Dr. William F. Sunday, pastor of the Lutheran church of the Good Shepherd, New York City, who characterized the kidnaping and murder of the Lindbergh baby as the "high water mark of America's shame."

Widespread Lawlessness

After citing widespread lawlessness as the outstanding moral problem of the day, the apparent futility of regular legal machinery to cope with the situation, and the apathy of American citizenship on the subject, the resolutions said in part:

- (1) "We request the boards of missions and Christian education through their departments of evangelism and the Commission of Christian Social Relations to associate with them our young people's organizations, laymen and other agencies and thus take the lead in an attempt to arouse and mobilize the righteous sentiment of our people against moral laxity in public and private life, and for a revival of Godliness and vital religion."
(2) "We request these agencies to provide suitable literature for the use of our people, including factual and other materials for sermons, addresses, and discussions, and inexpensive booklets and tracts for distribution. We suggest a concerted campaign of preaching on this subject during the Thanksgiving period."
(3) "We believe all plans should be formed with a view to ultimate participation therein by any and all other churches, groups, organizations and agencies which may be led to cooperate in this moral and spiritual revival."
(4) "We think this movement should be primarily spiritual and personal in character, involving no new organizations, forming no political program, making no appeals for money, and adding nothing to the already complex machinery of our churches."
"Such a movement, as the details may be formulated by the regularly constituted agencies of our church, we pledge our moral support and our active cooperation."

DEER SEASON IN WESTERN NORTH CAROLINA

Having complied fully with provisions of the North Carolina Game Law, following a public hearing on petitions at Asheville on June 8, 1932, the Board of Conservation and Development in regular session at Morehead City on July 13, set the season for shooting buck (male) deer in those counties west of Person, Orange, Chatham, Moore, Richmond, and Scotland at November 1st to December 15th of each year, and also limited the total bag for buck (male) deer in that section to two.

OPEN GROUSE SEASON

The Board of Conservation and Development, assembled in regular session at Morehead City on July 13, 1932, ordered an open season on ruffed grouse in North Carolina during the dates of November 21-30, 1932, with a bag limit of two for each day of hunting.

Interesting Facts About Counties Given

Some facts regarding the area, population and other statistics concerning counties of the United States may be of interest.

There are 3,072 counties in the 48 states, of which Texas has the greatest number, 254, and Delaware the smallest number, 3.

Santa Bernadino county, in California, is the largest, with an area of 20,175 square miles. New York county is the smallest, with an area of only 22 square miles. Bristol county in Rhode Island, is the next smallest, with 24 square miles.

Citing another case of extremes, Armstrong county, in South Dakota, with an area of 540 square miles, has no postoffice, with Alleghany county, in Pennsylvania, with 725 square miles, has 150 postoffices.

And speaking of postoffices, Leadville, Colo., is the highest, being 10,190 feet above sea level, while Calipatria, California, 175 feet below sea level, is the lowest.

North Carolina and Virginia have exactly 100 counties each. States having more than 100 counties are Illinois, 102; Kansas, 105; Missouri, 114; Kentucky, 120; Georgia, 161; Texas, 254.

One state, Louisiana, has no counties. But this does not mean that it has no political subdivisions as other states have. In Louisiana these subdivisions are called parishes, of which the state has 64.

RIBUTE TO MRS. J. M. BELL

When I heard that this dear friend had passed to her reward, I realized that the family had lost, and what I had lost. We will miss her always. But sorrow had come to this grand woman so often, I am glad she is at rest now. Words fail me when I try to do justice to my loyal friend.

Three beautiful daughters and only son rest side by side in Alta Vista, at Gainesville, Georgia, and now mama is there with them.

Never have I known greater fortitude than she showed. When sorrow kept coming, not once did she rebel, but after each blow up life again and went bravely on discharging faithfully her duties.

I spent some time with Mrs. Bell several successive summers at the Hotel Waynesville, which she managed so successfully, and every one loved her. Gracious, thoughtful of the comfort of others, smiling among her guests when her heart was broken, truly it can be said, "She hath done what she could," and the loving Father said, "Enough, come up higher."

Loved ones and friends will try to emulate her virtues, for they were many and "Some Sweet Day" we'll meet her again.

One who knew and loved her well. MRS. J. W. SMITH.
