FRUIT UPSIDE DOWN CAKE IS EVERYONE'S FAVORITE

It's a topsy-turvy world at best, so why not an upside down cake for dinner tonight? Hot or cold, this is a dessert that every member of the family appreciates...

You get out of a cake, pie or pudding what you put in it, and it's a waste of time, fuel and ingredients to carry the economy motif too far...

Preleavened Flour is an Excellent Aid in Making a Pineapple Upside-Down Cake.

value. Dried fruit, however, may well be substituted for fresh if more convenient, and the almonds may be omitted.

only once, and requires less stirring, so that a recipe calling for self-rising flour can usually be put together in half the time ordinarily required.

Self-rising flour is less expensive to use as it does not require any additional baking powder. This means quite a saving as self-rising flour and plain flour of the same grade sell at about the same price.

The ingredients required for the upside down cake are:

- Fruit Upside Down Cake. Fruit 1/2 cup sugar, 3 egg yolks, 3 tablespoons, 2 egg whites, 3 tablespoons, 1/2 lemon juice, 2-3 to 1 cup brown sugar, 1 cup self-rising flour, 1/4 cup nuts

If dried fruit is used it should be given several careful washings. Soak overnight, or cook slowly without soaking. No sugar is added. The fruit prepared, first melt the butter in a medium sized frying pan. Add the brown sugar and cook gently until melted.

To make the batter, beat the egg yolks till thick. Gradually beat in half the sugar, using a Dover egg-beater. Add the lemon juice. Beat the egg whites until stiff. Add the remainder of the sugar to the egg whites.

A whisk egg beater is best for this process. Sift the flour into the egg yolk mixture, alternating each addition of the dry ingredients with one of the egg white mixture. Mix these in by cutting and folding with a spatula or the whisk egg beater.

A simple one-egg is good to use instead of the sponge cake. Another good variation in the fruit is to use sour canned cherries, crushed pineapple, and nuts. Drain the juice from a No. 2 can of cherries, and a No. 1 can of pineapple, mix with the nuts and proceed as before.

This cake, which makes a substantial dessert at the end of a light meal, such as meat loaf, creamed potatoes, Harvard beets and sliced tomatoes, may be served either hot or cold. Whipped cream on top makes it extra good and extra nourishing.
