

Thousands Enjoy The System's Show

Temperature Here Drops 2 Degrees During The Eclipse Last Week.

Upon thousands of people Wednesday afternoon the slight of hand act, passing between the sun and the moon, was witnessed by everyone who smoked glass or picture glass, very few have reported that they made of the solar system show.

Dr. Green took careful note and timed every phase of the eclipse. At the first the thermometer registered 88 degrees. The last of the eclipse had away the thermometer stood at 86 degrees.

Green studied the eclipse through two different pieces of glass, each being about 12 inches long. He said after careful observation he distinguished a purple and the sun. He stated that the most beautiful he had ever seen and that he has not missed the sun during the last week.

Here reported that they felt a great difference in the air conditions. One person felt as though he were at a party.

Hall, manager of the Waynesville Book Store, linked an idea of the eclipse result being a "fix" on the sun. He cut strips of paper and smoked them, being careful not to let the glass to cut the edges wouldn't cut the paper. Then placing a large sign window with "eclipses" named them, he really brought customers. Many visitors did not want to miss the next eclipse that will be visible in 1945, it was said.

A LOCAL INSTANCE OF ADVERTISING PAYING THE ADVERTISER

Some business men are still skeptical about advertising, but it still pays to tell the world what you have to sell, especially through the columns of The Mountaineer, Haywood County's proven best advertising medium.

Last week Curtis Cut Rate had an advertisement telling of a new medicine never before heard of in this section, although it is a reliable product, made by a reliable company. In a very short time after the paper was mailed he had a call for the medicine, and since then he has sold more.

People are still buying merchandise and every day needs—but they are buying them from those who advertise.

Poet's CORNER

THE NIGHT ORCHESTRA
Says the cricket to the frog,
"Will you join our band?"
He said, as he sat upon a log,
"I'd like to, if I can."

Says the froggie to the kattydid,
"Would you like to sing?"
Then as he chirped around the old shed,
"Yes, I'll make the cool air ring."

The hoot-owl asked the water,
"Will you dance a jig?"
And the water answered coolly,
"As soon as I get on my 'rig.'"

Then they sang upon the darkness;
The sweet music filled the air;
The hushed silence awakened,
To musicians everywhere.

The fox-hounds picked the banjoes,
And the foxes just kept time,
And the roosters began their chorus,
And the sun began to shine.

"Yes," said the lordly young man,
I write poetry."
The girl was impressed.
"How truly devastating!" she exclaimed. Does your poetry yield any returns?"
"Yes," said the young man, sighing heavily. "It practically all returns."

"What was that noise I heard in your room last night?"
"Poor John had a dream that he was in town and he was moving the bed around from place to place, so he wouldn't be arrested for parking too long in one place."

If Your Doctor Was Your Cook—You Would Never Need Medicine

Physicians and Scientists Now Know that the Body is Composed of Eleven Minerals and Six Vitamins All of which are Contained in Natural Foods.

Modern, Refined Foods, Improper Cooking and Poorly Balanced Diet Rob the Body of these Essential Elements so Necessary to Health. Science finds New Way to supply These Deficiencies and Rebuild the Body.

Medical science, constantly searching for ways to prolong life, frequently come forward with startling statements of their findings, but no more astounding announcement has been made in recent years than the statement of an eminent Chemist who now declares that "There is no natural death. All deaths from so-called natural causes are merely the end point of progressive acid saturation." An amazing statement indeed but a warning, that if heeded, should improve the health and well being, increase the joy of living, and prolong the lives of millions of men, women and children who might otherwise drag through a weary life to an untimely end.

ACIDITY KILLS MILLIONS
Health authorities now agree that 95% of all diseases originate in the stomach and are caused by poor cooking, improper diet, and the eating of highly refined foods. Your doctor knows that the 11 essential Minerals and all Vitamins are contained in foods in their natural state and could be live with you constantly, carefully select and prepare everything you eat, you would never need medicines of any kind. This being impossible, science has been searching for years, trying to compound a formula that would make up for the deficiencies of those vital elements—and at last their efforts have been rewarded.
