# SALARIES OF TEACHERS AND OTHERS ROUTE 4 WILL BE

The Mountaineer has always tried erably better job, so far as financial to make it a point to give facts on remuneration is concerned, than did all matters of general interest and the average white teacher in North we are printing below the official re-port of the State superintendent of Again Public Instruction to the General As- unding that the salary of the cook is sembly. The report reads:

to the fact that the total amount paid consistence put into effect the sched. out in teachers salaries is very large.

struction to the General As embly the total amount paid out in salaries to teachers and principals for the past year, which was the first year under

salaries of the whole group, including principals and supervisors and teachers, both black and white amounted to only \$847.59.

Last year, 1931-32. there were 17. 127 white teachers. principals and supervisors in the State paid out of public funds. We paid these white teachers and principals a total of \$14.720.585.

The average annual salary of this group was \$859.50 or \$71.68 per month on a 12 months basis.

Page 5 of the report of Director of Personnel F. L. Dunlap, which has just been made to the General As-sembly shows that the 992 people on the State payroll, on boards, commissions, in departments and elsewhere, including everything from the Negro janitor and messengers and elevator operators to the highest paid State official, drew an average of \$1,625 a year. If they are cut 32% from the salary as has been suggested by the Budget Bureau the average annual salary of all of these officials, stenographers and Negro employees would be \$1,205.

The teachers make no protests against the salaries these people draw. They merely think that if this group is worth this much in their service to the State, they are certainly rendering a service that should

be worth \$71.68 per month. On page 5 of Appendix A of this same report it is found that the monthly salary last year of one of the employees of the State, listed as a cook, was \$69.33. If this cook got his board at the place he cooked, as Again the teachers are not con-

too high, but again they believe if the There is some misconception on the service this cook is rendering the part of many people about the sala-ries of teachers. This is due largely service is worth \$69,33 a month, their service is worth \$71,68. Should the reductions suggested by the According to the new report of the Budget Bureau, that is the sularies State Superintendent of Public In- of teachers and principals be re-struction to the General Assembly the duced 15% and 32% of the salary of can es based on the 1931 schedule, we in t the average annual salarie the white teachers and principals This, of course, is a huge sum of money, but it was divided among wa drawing \$91.00 - cook in 1931 the cuts instituted by the 1931 Leg- will be \$60.93 per month, and the

"perquisites" that usually go along with a cook's job, or the lack of there "perquisities" which do not go along with the teacher's job.

The report of the Commissioner of Personnel lists 97 classifications of positions with the State Highway Commission. The report says that it is impossible to give an accurate picture of the average yearly salaries of this group of people because of the short periods of employment for various groups, the amount of work to be done deciding the length of time various people in the different classifications are kept.

The average annual salaries of the people in the different 97 classifications ranges from \$1.787.55 to \$2,270.

Again emphasis is placed on the fact that the school people of the State do not think these exhorbitant salaries for the class of people that have to be employed, and the amount of in the next few days. training the majority of the people in these classifications have to have. Many of them are college people. graduates of technical schools. The average monthly salary sent up by the State for this group, including everything from junior guards of prison camps to the most highly trained engineer range from \$148.97 to \$189.00. The monthly salary rating of a teacher who is a college graduate,

with four years teaching experience is \$133.33 less 10 per cent or \$120.00 a month.

In the case of both of these groups of course, the total yearly earnings depend on the number of months emis the usual custom, he had a consid- ployment they are able to obtain,

# **Operetta Will Be Given Again Here** Tonight At 8 P. M.

The music department of the Waynesville Township school will repeat the operetta, "Love Pirates Of Hawith about 40 taking an active van." part, at the Central Elementary school 8 o'clock tonight, with a special lmission prices of 15 and 25 cents. The operetta was given Friday hight a week ago, but because of the equest, it will be repeated, Those taking leading parts are:

Sara Rathbone, Susje Membane, Iris Chasin, Hilda Liner, Ruth Ratcliff, Mary McCracken, Paul Davis, Edwin You Poteat and Boone Bolden. A chours of 16 Hawaian chorugirls will be members of the Girl's glee club, while the chorus of Pirates will be 12 members of the boys' glee dub.

N MEMORY OF MRS. RMINTA ALICE BALDWIN

Mrs. Arminta Alice Baldwin, only ughter of John Pinkney and Elizath Boyd, was born Feb. 1, 1861 in Buncombe county. At the age of five years she and her mother came to Haywood county to make their home with her aunt. Mrs. Sallie McCrary, after the death of her father in the devolutionary War. Making her home there until her marriage with Samuel Baldwin in the year of 1877 They lived in happy union until Apri 5, 1913, when he passed from this life. To this union eleven children were

born. Mr. Boyd Baldwin of Pacolet, S. C.; Mrs. Edd Padgett, Mrs. R. S. Walker, also of South Carolina; Mrs. G. W. Noland, Mrs. W. A. Noland, and Mrs. J. S. Ray of this county. She also leaves twenty grandchildren and three great grandchildren.

For the past fifteen years she has made her nome with her daughter, Mrs. W. A. Noland, of Crabtree.

She was a devoted Christian, having professed faith in Christ and joined the Baptist church at an early age, living a Christian life above reproach.

She was also a true and affectionate mother. Her place in our home can never be filled. We miss her more with each passing day. But God knew best. He carried her home to live with Him and her loved ones that have gone on before.

Among the boughs that wave So quiet in her grave. Unbidden tears have started As by the mound I bow. I have no mother now.

The pale moon shines so faintly, Yet I in fancy see Her face so pure and saintly, As when she smiled on me. Although she's safe in glory, Yet care beclouds my brow. There's sorrow in my story, I have no mother now.

I feel so very lonely The future seems so drear My dear Redeemer only Can make the pathway clear

One slave is a hollow dummy. The girl deftly slips off her glass couch and into the dummy while the sheet hides her from the audience. . . .

pushed the buggy back him and up the road and then led my horse down the mountain. I went around the mountain to the top of the other side and then retraced my steps.

About the coldest weather Mr. Burgin recalls was the finters of 1917 and 1918. During the winters of these years the mud would often freeze on the wheels of his buggy until it would form a solid mass and the horse could

not pull it. He would have to get out and knock the frozen mud from the vheels before proceeding. It was during these two winters

hat Mr. Burgin lost the only time to amount to anything from service, except regular vacations. It was that year that "flu" was raging and he was one of the ones who contracted

. He only lost 15 days, though. Mr. Burgin stated that he had often

had his horse to fall and many minor accidents of that nature, but had never lost any mail during his 26 years o

Bad roads are the outstanding menaces to the rural carrier, and naturally Mr. Burgin drifted back to that topic.

"Several years ago," he began, when the highway force were grading what is now Highway 284 at Pigcon gap, the mud was knee deep, and the county kept a team of big mules there to pull the buggies through. One time the mud was so deep that my horse could not move, so I got some help and we rolled him down the embankment into a pasture. He could roll, but he could not walk."

Then when they were building the Sunburst Railroad, the contractors Dellwood. would have a group of negroes to "As a rule I don't mind any kind the earth.

of weather except rain. Even in the summer time when you get wet you almost freeze. I'm just telling the hard things about my past,, there were some bitters among the sweets.' "On my routes I knew every family,

every member of the family, and even the dogs, and a lot of times would learn the summer visitors." Many times Mr. Burgin has had a

nice warm country dinner brought out to him and served while he sat in his buggy by patrons on his route, and at Christmas he was always the recipi-tent of some thoughtful gift from those who looked forward to his daily visit bringing them news of the outside world. Mr. Burgin brought out the fact

day as they did years ago. This is due, he thinks, to the fact that people due, he thinks, to the fact that people visit more now and can see each other more often, and that, of course, elimi-nates writing. 'About 4 years ago Mr. Burgin was get over it." of the same courageous material as Mr. Burgin remarked, "I will be lost after I quit, but I guess I'll soon get over it."

"They fools! They should let me

kill him.

The prisoner turned as he was led from the courtroom, held up eight fingers and asked Judge Collins how nerv years he had been sentenced to

The judge modded at the uplifted

fingers. "Four times twenty is eighty," angara shouted. "Oh, judge don't e stingy. Give me a hundred years. Laughing in evident amusement ngara then fell in with his guards

assigned to route four. He has caried that route to date.

was only about 6 years ago that It Mr. Burgin was able to use a car on the roads, and even now it looks as f sometimes he will have to resort to a horse again, he says.

Mr. Burgin is not a native of Hay-wood county. He was born near Old Fort in McDowell county. He came to Haywood on January 17, 1891 and settled at Tito, what is now known as Dellwood as a merchant. In May, the following year, he married Miss Cumi Owen, of Dellwood and then moved to Old Fort and engaged in

farming for 2 years. He then returned to Dellwood and operated a farm until he went into the mail service. The retiring carrier is a member of the Junior Order, Masonic Order, and a member of Martha's Chapel at

During the past twenty-six years pick my buggy up and carry it over Mr. Burgin estimates he has traveled the rails and ties, while I would lead 223,000 miles and handled more than my horse through the woods to the 1,600,000 pieces of mail. The distance other side of the construction work, traveled is equal to 9½ times around

Mr. Burgin has served under three postmasters. He started out under John Crimes, then T. L. Green and after Mr. Green, Frank W. Miller and after then Mr. Green again. He remarked. "If I had stayed until after March fourth, I guess I'd have been under another postmaster, but I have no idea who.'

Although he has finished his task as carrier, there still lingers in his memory many days of happiness when his patrons rushed to their boxes to receive their mail, which perhaps meant a note from a long lost relative, or friend, and even perhaps a proposal from some young swain who was handicapped in carrying out Dan Cupid's business by distance, or roads, that people do not write as much to-day as they did years ago. This is Sam's mail carriers who are made up

## **Boxing And Wrestl**ing Class Meet Here **Tonight To Organize**

C. A. George, who organized a boxng and wrestling class here last winter, announced yesterday that the lass will resume workouts beginning tonight, Thursday. in preparation for the spring tournament, and urges all members interested to get in touch with him at the W. W. N. C. Cafe for final details, and the place of meeting, Last year the Waynesville boys won of the championship events of the Western North Carolina tournament held in Asheville. Seven members of the class went as far as the semifinals.

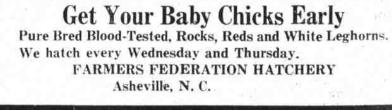

Those winning championships were Don Hyatt and Fred Ferguson, in the
