was brought out. After a general outline of the proposed building had been presented, a general discussion was made of the matter, the opinions expressed during the meeting was that every organization in the community would back such a project, and would go after it hard enough to "see it finished."

Mr. Hyatt went on to explain that the carefully planned project would be easier to achieve than one jumped at hastily.

Mayor C. B. Atkinson was not able to attend because of sickness, but sent a message to the meeting that the city would be glad to cooperate in any way and would back such a movement.

A statement was made before the meeting that it was thought that the property just this side of the cemetery formerly used as a golf driving range, would be available for the community house. PARENT-TEACHERS COUNCIL

An interesting and enthusiastic meeting of the Parent-Teachers' Council was held Monday evening in the Board of Education office at the county courthouse. The first vice-president, Mrs. B. D. Bunn, presided. Many items of business were discussed. Plans for an orientation day for pre-school children were presented. It was urged that all local units of Parent-Teacher organizations make plans for a clinic for pre-school children, and a summer round-up of all children entering school for the first time next fall. Booklets and materials giving information on this matter were distributed.

All Parent-Teacher groups were asked to sponsor study courses, the theme to be "The Child and His Problems." Presidents were urged to prepare detailed reports of their year's work, before the school year 1932-33 closes.

The importance of the correct observance of Good English Week was stressed.

Instructive talks were made by Supt. Homer Henry and Professor B. D. Bunn on the proposed school legislation and the probable outcome. It was brought out that the North Carolina educational system faces the greatest crisis since the Civil War and Re-Construction period. The public was urged to rally to the cause of education.

The group decided to send messages and letters to the members of the educational committees in the Senate and House of Representatives as well as to our own Senator and Representative, urging that the cause of education be given its rightful place in North Carolina, and that no further cuts in educational appropriations be made.

GOOD ENGLISH WEEK

February 28 to March 7 is Better English Week. The purpose of this observance is to create in children and grown-ups a greater appreciation of the English language when spoken correctly and in a pleasing voice; to create a desire for choice English and an enlarged and varied vocabulary; to create a sensitiveness to over-worked and slang expressions, careless enunciation, incorrect pronunciation and errors in grammar.

It is hoped that the use of good English in our community will be further emphasized by the proper observance in the clubs and schools as well as by the general public, and that the King's English will have fewer abuses and as our mother tongue receives a more careful study as to its correct usage.
