FREE! TEN PRIZES \$2.00 Value Each

The co-operation of the merchants whose advertisements are set around this page make it possible to offer to subscribers a very attractive proposition.

We have in our office a card with fifty lines thereon. These lines are numbered from one to fifty.

In the upper left hand corner of this board the ten merchants who are aiding us in this campaign will be listed and the editor of this paper will assign to each merchant a number, from one to fifty. Then these numbers and the merchants names will be covered so that no one can see them or the number, no one except your editor will know these numbers.

To the first fifty people who come into the office and renew their subscription or take out a new subscription will be given the opportunity to win one of the prizes offered by these merchants. The names will be listed on the card in the office as they come in, each one assigned a number. When this board has been filled up, the cover will be removed from the numbers and names of the merchants and the subscriber whose name appears on the line corresponding with the number assigned to the merchant will be given an order by the editor to the merchant who will deliver to you the prize he is offering.

Each prize has the value of Two Dollars. Read the advertisement and find just what each merchant is offering.

Pay your subscription of One Dollar and you have the opportunity to receive Two Dollars in Merchandise from one of our Merchants.

Remember this offer is only open to the first fifty who come into our office. An opportunity to get The Mountaineer for one year and then receive a handsome prize.
