Food Has Played Important Role  
In George M. Cohan's Success

Mr. Cohan cuts his favorite chocolate cake for members of his cast at one of the after-matinee "sweet snags" parties.

Chocolate Cake Leads to  
Tale of Near Tragedy  
In Early Days

By Mabel Love

If all the stories which have been written about George M. Cohan were placed end on end they could probably reach from one end of Broadway to the other.

He has, in the vernacular of the newspaper world been "done" from every angle that is except one, and that angle concerns a chocolate cake.

work to be done around here. I just sort of cut when I get the time and when I don't have the time, well I just don't eat that's all."

And so the doctor discovered that the world had almost lost one of her best loved sons because he was literally starving to death.

Cohan knows the value of a "sweet snack" as an energizer and on matinee days a repast is always served behind the scenes. One day it will be tea and cookies, another time milk and chocolate cake, but always something which includes a generous allotment of sugar, recognized by science as nature's greatest energy food.

That was the reason for the chocolate cake and with the gracious permission of Mrs. Cohan, you may try it yourself.

SUPERSENSITIVE PANCHRO-  
MATIC ROLL FILM

Recently the Eastman Kodak Company sent us, for trial, three rolls of their newest Kodak Film. Using it in an ordinary kodak, we got good snap shots on a cloudy day. This is much faster than the new speedy verachrome film and is sensitive to red and yellow. It is just the film for mountain views and cloud effects.
