The tobacco acreage in Surry county was reduced by approximately 25 per cent by the dry weather, and will be cut to 50 per cent in pounds if the drought continues.

**FACTS RELATIVE TO GOVERNMENT HOME OWNER'S LOAN CORPORATION**

The following facts will probably be of interest to home owners of Haywood county.

The Home Owners' Loan Corporation will take over loans in Haywood county where the same are in danger of being foreclosed or, in some instances, where foreclosures have taken place within the past two years. With the consent of the mortgage owner the Corporation will purchase first mortgages on homes which are not mortgaged in excess of eighty per cent of their appraised value.

In the event that the mortgage holder will not accept government bonds, in some instances the Corporation will loan the home owner as high as fifty per cent of the appraised value of his home in cash. This however, will demand interest at 6 per cent, whereas bond transfer will require only five per cent on the principle. In this connection it has been recently noted that the bonds of the Home Loan Bank are rated by the Reconstruction Finance Corporation at eighty per cent of their face value as security, whereas real estate mortgages are rated at about thirty three and one-third per cent. In some instances the Corporation will loan cash to home owners for the purpose of paying off judgments, arrears in taxes and make certain needed improvements.

The following is the general procedure for obtaining a loan or refunding an existing loan through the Corporation:

(1) Application blanks are expected at once to be ready for distribution. They may be obtained from D. D. Alley, Attorney for the Corporation in Haywood county, with offices in the Allen office building on Main street, Waynesville.

(2) The applicant will fill out the blank and forward it to the Asheville branch Home Owners' Loan Corporation, City Building, Asheville, N. C.

(3) The bank will contact the mortgage holder with the view of obtaining his consent to accept the Corporation bonds for his mortgage.

(4) The branch bank will then advise the applicant who will secure appraisal of his property by W. C. Phillips of Waynesville, Appraiser for Haywood county.

(5) When the appraiser's return has been made to the bank in Asheville abstract forms will be forwarded to the local attorney (Mr. Alley) who will examine the title and pass his opinion thereon to the Asheville branch.

(6) If and when the title is approved the bank will proceed to take over the mortgage.

All loans are to be in for a period not to exceed fifteen years but may be paid before maturity with interest to date of payment. Most loans will be required to be paid monthly though in certain instances quarterly, semi-annual or annual payments may be allowed. Although under certain circumstances the Corporation will allow the borrower to pay the principal for a period of three years, at that time beginning on principal reduction, it will be stressed that in all cases where possible that payment be made by the month, immediately upon the transfer of the loan.

Two photographs, for in different angles will be required of all property. The borrower, since no "home" or other fee is collected by the government will be required to pay the following fee, all of which will be regulated by the government:

(1) Appraiser's fee.

(2) Title attorney's fee.

(3) Recording fees.

The success of the Home Owners' Loan Corporation will depend largely upon the cooperation which this plan of President Roosevelt receives at the hands of mortgage owners. It is expected that the high rating of the bonds on the market will make the bonds much in demand.

M. D. D. Alley, the Attorney for Haywood county, has stated that he is prepared to begin handling applications as soon as the same are passed upon by the bank and will make every effort to effect these loans as rapidly as possible. The applicant should secure an estimate of the money required to pay the fees above referred to in order that the closing of loans will not be delayed on that account.

**Bishop Mouzon Urges Drys To Battle Repeal**

(Continued from page 1)  
he has done in taking "hold of the economic problems and the wise way in which he is leading us out, but the church has her place and work from God and God alone."

"I call on the daily newspapers of North Carolina to tell us now and in plain language whether or not they favor the return of the saloon to North Carolina," he said, adding that "if the men of the south do not arise and fight the nation is due for the worst moral debauch it has ever known. We have not surrendered, we have just begun to fight, and we warn the men who are trying now to drive through their repeal measure and bring back the saloon into the life of our people that there will be a day of reckoning."

The acreage to gardens in Caswell County has increased by 40 per cent over the 1932 acreage and corn plantings increased over 12 per cent this season.
