Reynolds Not To Speak During The Coming Campaign

Junior Senator Will Not Get Back From Trip Abroad In Time

Senator Robert R. Reynolds will not return to the United States in time to participate in the prohibition repeal campaign in North Carolina, it was learned this week.

The junior North Carolina senator has written his secretary, Johnston Avery, that the boat on which he will return to the United States from his European tour will not dock in New York until November 4. If the boat is not late, then by a hurried trip to North Carolina the senator could arrive there in time to deliver one speech before the election on November 7.

In view of the lateness and uncertainty of Senator Reynolds' return, Avery expressed the opinion today that he would not be booked for any speeches. Before leaving for Russia, Reynolds stated that he would return one week before the election during which time he would deliver several repeal speeches. Tentative plans called for Reynolds to speak in Rocky Mount on November 3 and Hickory on November 4.

Rumors continue to float into Washington from Moscow via New York that Reynolds is slated to take a \$100,000 job with the Amtorg Trading company, an agency of the Soviet government, in the United States. It is also reported that Reynolds' expenses to Russia are being paid by the Amtorg company.

Questioned today regarding these reports, Avery said "so far as I know

NEW WORK IN VOCATIONAL AGRICULTURE

On Tuesday, September 26, an Aggie Club meeting was called to order by the president, Taylor Ferguson. This meeting was the set date for the first step of the initiation of Freshmen taking agriculture. Checking on the twenty-eight boys who wish to receive their degree, we found every boy willing and wanting to do his work in the club and interested very much in the work. Only a part of the initiation was put on, and we hope to get to the rest as soon as possible. We also hope to make these freshmen the best class and group of boys Mr. Smith has taught yet, since the department has been in Waynesville.

The following Tuesday the boys devoted their work and plans toward the community fair, in their meeting, which will be held on Saturday, October 21. We have begun working and planning for our fair in order that we will make it the best one ever put on by the vocational agriculture boys. By lending us your help and presence at the fair, it can be.

The third and fourth year students are working now on plant cultivation that seems to be very interesting. This will also be placed in the fair.

Reporter,
ARTHUR FRANCIS.

The senator has been offered no position by the Amtorg Trading company," Avery stated, however that he did not profess to know everything about the senator's business. Avery said it is his understanding that Reynolds is paying his own expenses abroad.

...about Cigarettes

Of all the ways in which tobacco is used the cigarette is the mildest form

YOU know, ever since the Indians found out the pleasure of smoking tobacco, there have been many ways of enjoying it.

But of all the ways in which tobacco is used, the cigarette is the mildest form.

Another thing—cigarettes are about the most convenient smoke. All you have to do is strike a match.

Everything that money can buy and everything that science knows about is used to make Chesterfields.

The right home-grown tobaccos—seasoned with just

enough aromatic Turkish—are blended and cross-blended the Chesterfield way.

Then the cigarettes are made right—firm, well-filled. Chesterfield uses the right kind of pure cigarette paper.

There are other good cigarettes, of course, but Chesterfield is

the cigarette that's milder, the cigarette that tastes better. Chesterfields satisfy—we ask you to try them.
