Why the Sudden Change to Liquid Laxatives?

Doctors have always recognized the value of the laxative whose dose can be measured, and whose action can be controlled.

The public, too, is fast returning to the use of liquid laxatives. People have learned that a properly prepared liquid laxative brings a perfect movement without any discomfort at the at the time, or after.

The dose of a liquid laxative can be varied to suit the needs of the individual. The action can thus be regulated. It forms no babit; you need not take a "double dose" a day or two later. Nor will a mild liquid laxative irritate the kidneys.

laxative irritate the kidneys. The wrong cathartic may keep you constipated as long as you keep on using it.

Dr. Caldwell's Syrup Pepsin is a prescription, and is perfectly safe.
Its laxative action is based on senna
a natural laxative. The bowels will
sel become decondant on this form cot become dependent on this form of help. Dr. Caldwell's Syrup Pepsin is at all druggists. Member N. R. A.

Tennessee Walley Plan Is Explained By Dr. A. E. Morgan

Large Number of Western North Carolina Citizens Heard Chairman of Project

The part North Carolina will play n the development of the Tennesser valley socially commonically and opographically, was described to 400 eading business and professional men f Asneville and western North Careina at a luncheon in Asheville Friday, v. Dr. Archur F. Morgan chairman

t the Tennessee Valley Authority. Dr. Margan said he believed North relina would be included in the pre-ding system of power plants as on as the "demand for power wil ustify an increase of supply.

He asserted that this state would have its quota among the e who will y given immediate amployment on Norris Dam and other projects

"In steps for long range communiplanning in development of co-operctives in growth of forest policy, we shall look to North Carolina for leadership and cooperation," he said "Is exploration and development of raw material by stern North Carolina offers promise of new industries and at balancing of industry and agriculture we shall look for help and lead-
