

155 People

Can't Be Wrong!

In less than three months 155 people have subscribed to The Mountaineer—some renewals and many new ones—No special inducement was made to these 155 people to subscribe. Only the face value of the paper was presented to them. These 155 realize that The Mountaineer carries a vast amount of news about people and things right here in Haywood county that no other newspaper carries, and in most instances The Mountaineer is the only medium whereby this news is given to the world. Seldom does a week pass that The Mountaineer does not give several outstanding news stories to the world first.

If, during the next few days you receive a notice about your subscription, why not do as these 155 have already done—send in your dollar and continue to get the NEWS of Haywood County through The Mountaineer.
