When A Fellow Is Sick

By R. F. BEASLEY

Monroe Journal

You might think that when a fellow is sick, he's not sick, you know, but just laid enough to have to hang up that paper and catch up with the news. Mrs. Kersey says that when she was sick, she didn't know what the world was doing. You never play around with a sick man, he's not in the mood for anything but to get better and want to eat. The question of what they are going to do you have to move around to get it. One feeding kept going through the seven years of fun to be to be seen.

How the world of our interests do change. One never understands this when in health. For that reason I often think that we should be very careful in our dealing with the sick. I have seen many who, visiting the sick, was a Roman holiday for the visitor, and it might be said that the patient is a nuisance. It will be a bad day for humanity when it that day should be rather the families of the sick. If there is any joy to be had from being sick at all it is from experiencing the truly sympathetic and kindly helpfulness of neighbors and friends. But the man in good health never knows how the sick man feels the loss of his health he may receive.

Thedford's BLACK-DRAUGHT is made from plants that grow in the ground, like the garden vegetables you eat at every meal. BLACK-DRAUGHT has put into these plants an active medicine that stimulates the bowels to act—just as Nature put the materials that sustain your body into the vegetable foods you eat. In Black-Draught you have a natural laxative free from synthetic drugs. It is safe, does not make you have to depend on cathartic chemical drugs to get the bowels to act daily. Now you can get Thedford's Black-Draught in the form of a SYRUP, for Children.
