GOVERNMENT COW NEWS FROM FLAT ROCK

The government cows which arrived by freight a few days ago from Minnesota and other growth sections up north seem to be getting along very well in the nearby pastures. They like our grass and weeds and bushes ok, and it is to be hoped that they will be fat enough to kill when Uncle Sam gets ready to can some.

There is some complaint about the department of agriculture not dividing the cows up into smaller lots than 25 and 50. Just a few men get all of the cattle while the others get nothing. Yore carry spendent, mr. Mike Clark, rd, rote in and asked for cows or 1 cow and 2 calves, but nothing was heard from them. His pastor has only 2 or 3 akers, but it will pass that many government livestock.

Mr. Judd Little says he is going to have a powerful hard time keeping the government cows in his pasture, as the yankee animals don't pay no attention to a little obstruction like

a bob-wire fence and walk right over same and commence eatin corn and cotton and other stuff which is in process of being raised by his neighbors. He mought have to put yokes and muzzles on them in self defence.

Cows don't know how many cows will be in the full government pasture lot. If anny more is sent here we will have to ship our home-raised cows out west to have them pastored, as the northern cows will eat up everything above the ground in 2 months. These cows look like they feel at home in our midst, and have done very little balling up to now. They were hauled to their future homes by trucks.

The depot agent told holsum more that the freight on the cows, plus the feed bill while on the way, was about 108 or 28 more than a nice southern cow can be bought for on the local market. It will cost only 60 per month for the government to get the cows pastored, so by fall Mr. Wallace, the seck-tarry won't have very much invested in each

unless he paid the grower in st. gall and minnesota a few dollors for them.

Yore carry spendent, mr. Mike Clark, rd, has rote Washington D. C. and asked them to have some hogs shipped down to flat rock for him to pastor on halves. He has bemeddy grass and nut grass in his wife's garden, and judging from how hard it is to kill with a hoe, he ought to be able to pastor at least 25 hogs and 6 pigs in the said garding and keep them fat from one end to the other. He is looking for some hogs at once.

FLAT ROCK FLASHES Miss Jennie Veeve Smith has asked me to put a notis in my collum to the effect that she lost her diamont ring bewixt the swimming pool and the drug store one night last week which was given to her by Jerry mire huskins last year, but he has since married another girl. Nice reward will be paid for its safe return with all 9 of the diamonts still in it.

No preaching will be held at reboher ending the month of august onner count of the pasture rev. waite, being off running protracted meetings for other churches in the hopes that they will pay him some cash for same. He could get only 28 per sole, he would better and 4 by re-instatement. If he could get only 28 per sole, he would come out very well.

The graveyard at reboher was cleaned off last Sunday by a large crowd of loving friends of the folks who are buried there and gone on before to rest in the beautiful sky. A very nice picnic was given in the afternoon on the ground by the wives and sweet hearts of the clombers. It was a good time was enjoyed by all except to the green hand. Over 2 hundred were on hand to help and work and the of the church on that day. The work was done in a very nice manner and the church was left in a very nice shape.

The church was left in a very nice shape. The work was done in a very nice manner and the church was left in a very nice shape. The work was done in a very nice manner and the church was left in a very nice shape.

Striking Caddies Go Nude And Force Golfers Off Course

Chicago.—The swanky Exmoor Golf Club in Highland Park fought off the spread of nudism.

The nudists, about a score of them romped over fairways and greens and splashed around in the water hazards to consternation of the golfers.

Earlier they had demanded more money—at once. One hundred and sixty of them dropped bags they had been carrying and met at the clubhouse.

They turned cold shoulders to proposals that they wait until a field of 200 members and their guests completed the mixed foursome play.

One golfer suggested to take two clubs and play anyway. The foursomes started out. Presently a woman took a careful stance to drive across a deep water hazard.

A nude figure flitted past her another, then another. She left the course. Other golfers came and went, the same way.

A call to the police brought officers, who shooed the stokers into their clothes and off the course. The caddies demand a flat fee of \$1 for 18 holes and 90 cents for nine holes.

Kin Surprised By Request Of Late Marie Dressler

London.—Mrs. Richard Ganthony, seventy-year-old widow sister of the late Marie Dressler, expressed amazement at the sum of money requested to be obsequies left by the dead star actress.

"I am Marie's only relative left in the world. I can't understand how she could have left a sum of money as large as that," Mrs. Ganthony said.
