T. Deweese, John Summerow, Kenneth Moore, Billy Griffin, Louie and Dewey Cochran, Frank Scates and Bill Crawford, and Eloise, Samuel, Betty, and

Highway Deaths Increase In July

Raleigh.—Highway fatalities for July compiled by Captain Charles D. Farmer of the highway patrol, rose to 70, or four above the slaughter of June, but they were below the mark of July, 1933, which recorded 74 killings in 254 opportunities to slay. It took 323 accidents to produce 70 deaths for July, 1934, and 505 persons who were hurt survived. To kill 66 persons in June, last 285 accidents were required. The 74 killings for July, 1933, were matched by 370 injuries. The pedestrian slain were 22; the hurt were 25 for July, 1934. Of these killings, seven were children playing in the streets and 13 juveniles were injured. Seven of the fatal accidents were traced to intoxicated motorists and 38 accidents were without fatal accident. Captain Farmer's analysis shows. The main cause of these accidents is speed and reckless driving. There were four deaths caused by hit-and-run drivers and 48 non-fatal.

All property on which 1933 taxes have not been paid will be advertised on Thursday, September sixth, and sold on Monday, October first.

To prevent additional cost, we urge that these back taxes be paid immediately.

Board of Aldermen Town of Waynesville

QUESTIONS and ANSWERS about THE NATIONAL HOUSING ACT

WHAT IS THE PURPOSE OF THE National Housing Act? President Roosevelt says, "Many of our homes... need repairing and modernizing to bring them up to the standards of the time." The purpose of The National Housing Act is to make it possible for homeowners and prospective homeowners to secure funds to repair, remodel, moderate or build homes at low rates of interest with repayment privileges covering a long period of time.

WHO IS ELIGIBLE TO Get the Money? (1) Any homeowner of good character—a good credit risk who has a means of livelihood and is able to meet the payments required may borrow funds to repair and modernize homes to bring them up to "the standard of the times." (2) Persons wishing to build new homes who have 20 per cent of the value of the finished project may borrow the remaining 80 per cent providing they are of good character—a good credit risk—and enables them to meet the payment required. (3) Homeowners who wish to refinance their present mortgage may borrow up to 60 per cent of the appraised value of their homes, providing they are of good character—a good credit risk—and have a means of livelihood which enables them to meet the payments required. This amount must be paid off in regular installments, covering principal and interest for 20 years or less. There is no renewal fee involved in this transaction.

HOW MUCH CASH Can Homeowners Get? Up to \$2,000 is available to homeowners for repairs, modernizing, and to bring homes up to the standard of the times. Up to \$16,000 is available to builders of new homes.

WHERE DO Homeowners Go to Get the Money? To your community's established leading agencies such as banks, insurance companies, and building and loan companies. These agencies recognized by the United States Housing Administration, have full details about the act and are ready to answer any further questions.

WHEN WILL THE FUNDS Be Ready to Use? The money is waiting now. Home owners desiring to take advantage of the privileges of The National Housing Act should consult with leading agencies in their community at once.

WHY WAS THE NATIONAL Housing Act Passed? To set up the credit machinery to make it easy for homeowners to secure funds to repair and modernize homes and to bring them up to the standard of the times. To make it possible for prospective homeowners to build new homes to refinance present mortgages under easy payment plans at low rate of interest. To foster increased business and employment in the building trades and allied lines—a vital part of the administration's recovery program which leads us to what the President terms, "a more abundant life."

Ask your Contractor, Banker or Dealer for Further Details.
