East Waynesville Teams Win Out Over Hazelwood

Last Wednesday afternoon the East Waynesville Elementary basketball teams captured two games from the Hazelwood teams on the high school court. In the first game the East Waynesville girls had little trouble in winning. With the first strong guards holding the opponents scoreless, the forwards, led by the splendid floorwork of Handcock and Messer, soon had a commanding lead.

The boys game was close throughout. East Waynesville took the lead early but some beautiful shots by the Hazelwood boys closed the gap to a single point at the end of the game. Both teams failed to score on many easy tries.

The East Waynesville girls' and boys' team were undefeated in their eight game elementary schedule last season.

Asheville's Big Team Barely Win Over Waynesville

Black Mountain Will Be Faced On Local Field Here Friday. Team in Good Shape

By W. Thos. Reeves.

After playing last week away from home the local lads return to their field this Friday when they meet the strong eleven of Black Mountain Friday. Coach Weatherby was well pleased with his team in the game last week. He was especially well pleased with the defense and the way his first year players stood up under fire. During the past few days of intensive plays have been the order of the day with the hope that the team will get the scoring punch which was characteristic of the 33 eleven, Western Carolina's champion of last season.

"Yank" Bridges will be seen in action at the safety position. Not that Yount has not played well, but it relieves the strain to have a veteran in that dangerous position. Moore or Yount will probably start at one half-back position with Summerow and Reeves completing the quartet. Mack Garland will take one tackle position in the line. Potat and Leatherwood, heretofore tackles, will no doubt be in the starting lineup. Bryson may be found in the line. Ross and Hyatt will be there with Gillett, Ferguson, Francis, Byrd, and others fighting for places.

Regardless of the line-up a splendid game is in store for local fans who will be watching with interest the wonderful playing of this year's team without the service of many of last season's stars.

Coach C. E. Weatherby's "team of youngsters" journeyed to Memorial Stadium to meet Asheville High's eleven who "was not out to merely win the game but to run up the score." Instead of running up the score the Devils were lucky to win. According to some southern Asheville's team won on "breaks." The game was clearly a great moral victory for Waynesville and a disappointment to Asheville. Coach Weatherby's sophomore backfield and inexperienced line did very well to hold Rogers, All-western, and Osborne to a couple of scores. Tom, the boys did well to rush a heavier line back an intended punt and get on the ball for a touchdown. Bridges, the boy who had on his uniform for the first time in three weeks, drove the line for the extra point. The Mountaineers were out-classed by a more experienced, hard fighting

Very Much Improved After Taking Cardui

"I have suffered a great deal from cramping," writes Mrs. W. A. Sewell, Sr., of Waco, Texas. "I would chill and have to go to bed for about three days at a time. I would have a dull, tired, sleepy feeling. A friend told me to try Cardui, thinking it would help me—and it did. I am very much improved and do not spend the time in bed. I certainly can recommend Cardui to other sufferers." Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

team. The Asheville boys, under the direction of Coach Leeper and Hipps were playing their first game and played well.

Osborne and Pope scored Asheville's touchdown in the second and fourth quarters after some beautiful off-tackle plays had placed the ball in Mountaineer territory. Osborne kicked to Yount who fumbled and lost the ball on his ten yard line. On the first play, Osborne went over Waynesville's left tackle for the first score.

In the final quarter Rogers made 26 yards over tackle to place the ball near mid-field. Asheville was forced to punt. Summerow threw another flank pass which was intercepted and downed on the local team's 20 yard marker. From this position Pope made a beautiful run over and around five or six Waynesville players to score standing up.

In the final quarter Asheville lost eight yards on a running play ten on a fumble, and fifteen on a penalty. This placed the ball on their seven yard line. Rogers' attempted punt was blocked by Ross star of the Waynesville defense and Hyatt fell on the ball for a touchdown. Bridges carried the ball over for the extra point.

It was Anthony's first ride in a railway train and the succession of wonders reduced him to a state of hysterical astonishment. The train rounded a slight bend and, with a shriek of its whistle, plunged into a tunnel. There were gasps of surprise from the corner where Anthony was kneeling. Suddenly the train rushed into broad daylight again and a small voice was lifted in wonder.

"It's tomorrow!" exclaimed the small boy.

Timely Questions And Answers On Farm Problems

Question: How long does it take new males to produce eggs that are fertile enough to hatch?

Answer: Where old males are removed and new males introduced it will take at least three weeks before the eggs are fertile from the new blood. By allowing this time you will be sure of getting chicks from the new males. If there were no males with the flock for some time before putting in the new blood, the eggs should be fertile enough to set in a week or ten days.

Question: How much grain should be given each day to a dairy cow during the winter?

Answer: This depends upon the production and breed. For Jersey animals producing less than ten pounds of milk no grain should be given, but for every pound over ten the animal should have six-tenths of a pound of grain. Guernsey cattle should receive a fraction over a half pound for each pound of milk produced above twelve. The Holstein cow gets four-tenths of a pound of grain for each pound of milk produced above 16 pounds and the Ayrshire should get a little less than one-half pound of grain for each pound of milk over fourteen. This grain ration presupposes the feeding of all the good legume hay the animal will eat. Where the hay is of poor quality more grain will be consumed.
