

THROUGH STATE CAPITAL KEYHOLES

By: Bess Hinton Silver

Rings The Bell Again
The reorganized State Revenue Department hit another one over the fence for a home-run in report of collections for the first quarter of this fiscal year. Collections for July, August and September totaled \$7,112,562.98, representing a gain of \$2,678,400.21 more than were gathered during the same quarter last year. The percentage increase for the quarter was 62.34, while a gain of 217 per cent was registered in the month of September. That's good news to Revenue Commissioner A. J. Maxwell who has heard that the Legislature will seek to make his post elective instead of appointive, and his assistant, Dr. M. C. S. Nobles, who has heard rumbling of coming attacks on his position next January. Both men will be well fortified with figures if attempts are made to get them down on the carpet.

Boys, Get The Votes
Now that the battle on the textile front is over the State Democratic organization has opened State

headquarters in Raleigh and is all set to scrap the Republicans for a couple of moons. Cutler Moore, Lumberton and Raleigh insurance man, is the new secretary to succeed John Bright Hill port collector at Wilmington. J. Wallace Winborne, committee chairman of Marion and Mrs. Charles W. Tillett, Jr., of Charlotte, are in town scratching their hands on how to get out a big vote next month in the absence of state-wide contests of major parties. The old bunk mills of both parties will be grinding merrily for some weeks.

Pulled A Boner
Many politicians coming into Raleigh from over the state express the opinion that Congressman R. L. Doughton, considered a 1936 candidate for Governor, pulled a boner when he telegraphed Francis J. Gorman, textile strike leader using troops in troubled areas. Gorman termed the Doughton telegram "favorable" and in Raleigh it was interpreted as a bid for the organized labor vote but some hair-splitting politicians are of the opinion that the Congressman

didn't expect the message to be published.

How's Your Road?
Members of the State Highway and Public Works Commission estimate conservatively that it will require upwards of \$2,000,000 to "recreate" the old county roads or secondary state system to the condition they were in when the legislature hamstrung expenditures two years ago. If the next legislature diverts highway funds the state will suffer a \$1,000,000 "penalty" in federal funds each year of the coming biennium. With all the varied and sundry demands for diversion, demands for purchase of toll bridges and lowering of the license tax is not impossible that North Carolina may be one known for its "bad" roads.

More Trouble
Federal relief threaten to withdraw all assistance from states not sharing in the costs. The State of North Carolina is not spending one penny on relief and the local units very little. This state may get a stay of execution until the legislature convenes but what will happen after that is an unknown quantity. The General Assembly is going to have headaches over running the schools and other functions of the state and now it will have the added task of raising money for relief.

Vindicated
Governor Ehringhaus, State Public Commissioner Edwin M. Gill and the courts were vindicated of charges of prejudice when Emanuel Spencer Bittings, Person county negro, won to his death in the electric chair. It had been charged that Spivey did not get a fair trial and that his family was intimidated. A. H. took his seat in the chair Bittings said "This is not my fault, it's God's—fault; but my own that I am here." He should have known.

In The Cold
So a departmental employee are wondering why they that nobody seems to realize their reduced financial status. The extra hand expense and wages are arising in seasonal pay for food, clothing, fuel, tax, and other necessities. Just to give you an idea of how things stand the CWA furnished a portrait of one state official and paid her more than his full time secretary was getting.

Up The Ladder
By reason of deaths and primary defects Frank Hancock the up-and-coming young Congressman from the 18th North Carolina district, will be number three man on the highly important House Banking and Currency committee of the next Congress. Hancock one of the young and most aggressive members of the North Carolina delegation is known in Washington as more Rooseveltian in his ideas than even the President. Every now and then his name pops up in speculation as a potential candidate for Governor or the Senate.

A Lot Of Grub
The Prison division of the State Highway and Public Works Commission, under the direction of Jack Roach, among other little jobs has to prepare 25,000 meals each day for prisoners and employees. That's an average of slightly more than 1,000 meals every hour—and the way those huskies can eat. It's a neat little job of housekeeping that faces M. Roach every morning at breakfast.

Tar Heels On Scene
North Carolinians are forging to the front in the Roosevelt Administration—there's Josephus Daniels, Ambassador to Mexico; Wm. E. Dodd, Ambassador to Germany; J. Crawford Biggs, Solicitor General; Turner Battle, practically second in command of the Department of Labor; Justice Walter P. Stacy, chairman of the President's Labor Mediation board; S. Clay Williams, newly named chairman of the reorganized NRA board. In many of these appointments many seem profess to see the fine Italian hand of former Governor O. Max Gardner, regarded as one of the President's most confidential advisers. Governor Gardner is reported to be enjoying one of the most lucrative practices in Washington.

A Halloween play, The Hallowe'en House will be presented by the high school pupils for Halloween.

The news in North Carolina, not yet three months old is now appearing in 32 papers in 28 counties of the state. You must admit that it's a good-sized magazine for its size. Almost every week come new paper stands publishing "Capital Keyhole."

Good Money
If you don't like the "jobbed" stuff, it would be well to get out to see through the country and hear the experiences of happiness that come from the lips of farmers, and by the smiles on their lips. Money is dollar are flowing daily into their pockets and automobile salesmen are their buy day. But the happiness of all probably is Governor Ehringhaus who went to bed for the tobacco growers with such decided success last year and has watched prices continually on the rise.

Much Talk
Raleigh recently dedicated its new \$250,000 report and aviation official agency that it is one of the best out of the Mississippi river. It was a grand occasion and every eye and ear that except the folk who stood on their own feet during all the speeches, protesting the flying stunts. Aside comments indicated that Tar Heels would like more action and less talk at their celebrations.

BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theodor's Black-Draught about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. I take it as a purgative when I am bilious, dizzy and have swimming in my head. Black-Draught relieves this, and helps me in many ways." ... Keep a pack-age of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.
