Crabtree News

(By Hugh Rogers) The farmers of this section are not making much progress with their work due to the extremely bad weather which old Man Winter handed to us recently; however, I think everyone is happy. With hog-killing, handsome tobacco checks, and Christmas holidays coming along, we should all be very grateful.

We are pleased to report new neighbors from Clay county, Mr. Floyd Davenport and family. The community extends a hearty welcome to the newcomers in the hope that they will enjoy living with us.

Mr. Garnett Best, of Enka, spent the week-end at his former home on Crabtree.

Mr. Paul Walker and family, of Waynesville, motored to Crabtree Sunday to visit his parents and relatives.

Mr. and Mrs. Ellis Smart were in Waynesville making purchases for the Christmas holidays.

C. B. Allen is spending a few days in New York on business.

Mr. R. Arbush, of Clay county, visited some of his relatives on Crabtree Monday.

Mr. and Mrs. Gay Bradshaw, residents of Canton, spent Sunday afternoon with Mrs. Essie McCracken and family.

Mr. Hubert McCracken, who is taking a course in law at Wake Forest College, is spending the holidays with his parents. Mr. and Mrs. E. B. McCracken.

The Epworth League of the Mt. Zion church wishes to announce a program to be given next Sunday night, Dec. 23rd, at 7:30. The League is expecting a good speaker to be with them. All are welcome and urged to come.

BLACK-DRAUGHT For CONSTIPATION

"I am 71 years old and have used Theodor's Black-Draught about forty years," writes Mr. W. J. Vanover, of Rome, Ky. "We are never without it. Keep a package of this old, reliable, purely vegetable laxative in your home, and take it for prompt relief at the first sign of constipation.

It is also obvious that stiffer-stalked strains are clearly within our grasp. There is still the problem of obtaining in one combination the qualities of maximum yield, stiffness of stalk, drought resistance and disease resistance, as well as the ability to maintain the same advantage in yield over open-pollinated corn on poor land and rich land. It would seem, however,
