clustee to lick it, . . , Hike,

Graving and cursing, four fusities the burgeting the barrel of salt and o, to ing to still his excited breathemption his fingers as he waited Osir arrival.

"Gasoline?" he shouled to Able, seethim for the first time, "Water "I touch it! We've got to smother and we can't get sand handil" and It should do. If Buller can hold her hen she slicks her head through the

"In fure, boys! Close, now !" Ben eaved on the heavy ballel of salt mast, rolling it in to the doorway hich led directly into the fire. "All zht Jake! Into the bucket ne all of you!" He swung his s on wire hoop and the barrel popped pen. He struck again to clear away taves and drove a dozen quick blows nto the lumpy salt that spilled out, to pulverize it.

Next he grabbed up his shovel. connect it full and disappeared into he smoke.

His over smarted but he took his lime, blinked and surveyed the fire. then he swung his shovel upward and idemars and sent its burden in a plasing spattering smear at the center of a particularly hot spot. The bluereen-orange combination of living fire fave up at once to a saffron smudge. Ben leaped into the open again, preathed deeply, filled his shovel and Coing his best to hold his breath, dred back into the smoke. He drove hat shovel of salt hard upon flame. too, and retreated at once. A dozen trips, and he had the flame down in an trea the size of a blanket. He worked ⁰ the right, then, going further into the mill, coughing and reeling, and when he emerged that time he retched painfully. He stood over his salt pile moment, gulping fresh air while lausen shook him. He breathed builds, forcing his lungs to pump feep and fast, sending clearing life through his arteries. His head steadled he scooped up more salt and comressing his lips against the shaking ans, ducked into the mill.

Easter and faster the buckets came D, tome big, some small, now and then he that leaked away its precious conats. Fire found hold a the edges f the hole Buller had made in the or. Little tongues of flame ate into the dry wood and curled upward. To

Buller's right a finger of fire crept up etween two boards; beyond it another appeared. In a dozen places fire was coming through the floor and Builer, swaying on his feet as he bughed, turned to the next man in Ismay.

"He said . . ." he choked "Got to

"Getting Her!"

With hissing splashes the water from their pails went sloshing against the overhead woodwork and gradually the glare through the thick shoke subsided

"Getting her!" Ben panted as Able tried to say schething to him. "Getting her !" He coughed and his wo is had come in a balf strangle buy even yet !" so, the exultation in his cone was unmistakable.

Smoke on the ground floor thinned somewhat. Men ran forther into the building with their water, and a bilt more time in throwing it. Again salt was used down below to cover hot little Islan is in the litter. Up above more water was thrown acress the floor to kill fl mes in the creeks.

Living flame no longer leaped and was prowling the mill, admitting to roared through the hole in the floor. himself that perhaps it was time to Thick smoke swept upward but that loof a, h.s hole card-the letter that was all and as Ben ran up he ley the old cruiser had sent to him with slide for the first lime and saw this its intriguing inscription-a stranger he cried out: beh nd a light driving team swung into

"Good work, Buller! Over there. though ; look !"

Fire had taken fresh hold in r grensy timber and was worming its way up beneath the trimmer saw. Buller dashed a half dozen, palls of witer on the spot and it went black

"Keep going, Buller !" Ben ried, "I'll take half your men."

He went slipping down the slide and at the bottom called men from the bucket line.

"Stretch out, the rest of you!" he called. "Now, this way, you lads; in here and mop her up, and make it fast !"

Stubborn flames ate into the litter on the ground floor. Again and again they broke out, but the driving heat was gone, roaring gases no longer gave Impetus to the spread of destruction as the first need for speed became ess down you might be interesced." Imperative.

Not until the final curl of smoke had been subdued completely did Ben Elliott relax. Then, with lantern light ed, he entered the saw floor, complete ly ice glazed, charred in places, and surveyed the damage. As he swung his lantern and looked about, preting at timbers eaten half away, at burned belting, at other vital damage, he moved slowly, said little, as a man will who is thinking soberly.

He stopped beside Able Bemiltage finally.

"Well, the insurance'll cover it." the old justice said, as if trying to make the best of things.

hands in his t'p pockets. He came to why direction marallel with the L. f. a hait before Elliott and eyed him nar- Holmes and Bishop James Atkinrowly. He stood so a moment as if in 125 feet to a stake; then in a North only direction parallel with Mar debute with self. "We has a fire," he s id. "Not the Street 58 feet to Bishon Jame At kins' line; then in a Westerly kind you fight with fire, exactly. .

But old Don teld Bird-Eye that ou'd have to use fire to fight another kind with didn't le?"

nen smiled slow,y.

"You's thinking of the old timer's Well, maybe letter, ch3 But we re not licked yet. Something

- chance, now?" he muttered.

Still, something did tora up.

were Not There!

MANY TIMES each day you reach for the telephone on your desk at the office or in its familiar spot at home. It is an old and trusted friend. You scarcely give a thought to what it means to a busy day.

Yet suppose the telephone were not there! Suppose -for a week-or a month-you could not call anybody by telephone and nobody could call you! The whole machinery of business and the home would be thrown out of gear. Orders would be lost-efficiency and profits reduced. You would be out of touch with your world

America needs quick, reliable telephone service to get things done in the brisk, crisp American manner. And it enjoys the best service in the world. America leads in telephone service. In relation to population there are six times as many telephones in this country as in Europe and the telephone is used nine times as much.

Greater progress has been made in this country because of the Bell System's one policy, one system and universal service.

Southern Bell Telephone and Telegraph Co.

(Incorporated)
