S. C. SATTERTHWAIT

With his faith and interest in Waynesville, it must have given the late S. C. Satterthwait much satisfaction to watch the small mountain village cut off from the world, as he first knew it, finally become one of the leading resorts of the state...

As the owner of the Eagles Nest Hotel, and as the secretary and treasurer of the Southern Assembly, it is doubtful if any one person has contributed more than he did to the development of the town as a resort.

Since moving to Atlanta several years ago he has been greatly missed and upon his return each year for the summer season, he has entered into the life about him with well remembered enthusiasm.

His friendliness was a joyous thing to experience and his greeting always brought cheer to the loved life and he lived it abundantly. There could be no regrets of time ill spent, in his more than eighty years, nor of work unfinished when he put out to sea.

COMMUNITY SUICIDE

One of the strangest phenomena witnessed in many towns and small cities is the apparent eagerness with which many otherwise good citizens contribute to the tendency to commit suicide.

There is a very wide range of opinion among the people of the community as to the cause of this phenomenon. Some believe it is due to the influence of the press, while others believe it is due to the influence of the law.

It is true that the press often publishes sensational news, but it is also true that the law often punishes the innocent. It is the combination of these two factors that creates the community suicide.

Random SIDE GLANCES

By W. CURTIS RUSS

Cody Platt has a riddle he is telling around town, which is something like this: "I saw a plow going yesterday without man, beast or tractor."

And the no joke, or book yarn, it actually happened at the head of Chawhills creek, he said.

Each section of the country has different names for things, for instance, here it is not unusual to hear the word 'poke' used for bag, while farther east it is 'sack'.

During the winter months the snow is piled up in the corners of the streets, and the children will play in it for hours.
