A CAROLINA ORGANIZATION

A Real Year 'Round Health Food

CAROLINA

ICE CREAM

The Cream of Creams

CAROLINA ICE CREAM is made from GRADE "A" MILK. No other cream that you can buy in this territory can advertise this feature. At a large expenditure on our part we have installed a modern pasteurizing plant, which insures you of the best that can be had in milk. In this same manner we make daily CAROLINA BUTTER and BUTTER MILK. There is no need to worry about being able to get the purest there is available in MILK, BUTTER, ICE CREAM AND BUTTER MILK this year, because WESTERN CAROLINA CREAMERY IS MAKING IT THAT WAY. We Invite You To Inspect Our Plant.

MADE UNDER ABSOLUTE

SANITARY CONDITIONS

When we built our present building, we were careful to bring a State Inspector in for his advice and counsel. As a result, we have an ideally equipped plant meeting every state requirement with a plus added to it!

Go to your favorite Ice Cream Dealer and tell him you want CAROLINA, taste its delicious flavor, and know that you are getting FRESH fruits and complete sanitation.
