No. Mr. Editur, havin' a sence of yoomer don't allus make a Yoomerist out of eny one. . .

Thar's a lot o' folkes who like good

But to save thur lives, they cannot bake.

Then, besides, if you wuz to remov 12 of sum fokes brain they woodn't hav eny left, no sir-ee.

Well, Unkle Abe mist the nostrich ice. . . . Theo McCracken mist it race.... Theo McCracken mist it too, an' Banker Jim, cauz Jim wuz a-countin' hiz munny an' Theo amindin' hiz store at the time. We 3 wuz lamentin' over the fackt that we Hazelwood and runs thence mist seein' the gals an' the nostriches w W 515 feet to a stake in purform (ye see L. A. Miller got em to do thur stunt down on hiz street) when Unkle Abe suggested the followin', sez I:

"Boys, if you fellers will finance the thing, I'll tell ye what we can do. Thar's 2 or 3 gize here in town an' a lot more out in the neerby cuntry thence S. 8° E. 754 what look like a no rich-all they it the edge of the bot- lack iz a few fethers suck about, an we cood git the fethers. Then we'de time; thence with said ploom up 2 or 3 of thre nostrich

#### "N. C. Better Because Of Democratic Leadership," Says Byers

(Continued from page 1)

But the hardist part will be in fault that at the the proper time we every dollar, with interest, that our State owned to any one. And that isn all. In the face of such a situation : that there came complaints from for and wide over the State that our school system should be given more consideration, and that same Legibiture, with all the things before non tioned, set about and established at 'ounty in North Carolina without one copper of tax being levied upon the eal estate in the Counties—a tas which was performed by the Demo o the boys and girls of this State.

"And not only did the State funcion for the schools, but reached it hand out into the remotest section of the State and took over every for of public reads in every County is North Carolina and put it under the supervision of the State Highway Com mission and relieved the Counties of what heretofore had been a burden some tax paid by the Counties for the upkeep of the public roads, and this highway system today has made of North Carolina the wonder of adjoinng States and the envy of for

eign countries. "I recite these things not as a defense of the Democratic Party, because t needs no defense, but I recite them I say furthermore that all the things that have come to North Caro ing have come at the hands of the and through this vast assembly o Young Democrats I have the hope and belief that we are going to perpetuate

he proud history of our Party "The history of the Democratic Party in North Carolina is nothing more nor less than the history of creat progressive commonwealth, and nay it be known all over this State that we as Young Democrats assembly d in Convention, are solidly back of undertakings which he has had and still has in mind for the good of all our people.

"Not only in North Carolina has the Democratic Party been called upor for leadership, but in the Nation a vell, and it is to the National Adminstration that I would call your attention for a moment. The Republican arty was in power in this Nation from he termination of Wilson't admini-932, and under the leadership of the Republican Party in 1930 the Nation ntered into a depression, or panic, !! ou will, such as has perhaps no coun o bear. Many things have been writ ten and many causes have been alleg ed as the reasons for the awful de pression that settled upon this country it that time, and I am not here at empting to say how or why the reas on, but suffice it to say that the situa tion gradually grew worse, although places in the National Government that told us that 'prosperity was jus around the corner,' and that "in a few months we will be out of the wilderness of depression, and some there were who believed, or tried to believe that everything was coming out all right, but contrary to such advices he financial situation became worse and worse, and nothing seemingly ould be done to ward off the calam

"In other words the leadership of the Republican Party was unable to ope with the situation and it looked s though the Democratic Party in he Nation would again be called upor to take the leadership in the adjust ment of the great national deback And the Democratic Party in convention assembled turned its eye toward a young man, a veritable Young Lochinvar, not out of the West, but from the great State of New York, and unmimously nominated, and in Novemher of the same year almost unani mously elected, to my mind the great est financial genius, the most far-sighted statesman, the greatest patriot, the finest Democrat, and the most unwas a 'New Deal' on this walled tresident and we had a Comress who tray to return to our rapids from them

No a Boal and at the proper time to let the world know that we are standing in solid is to teach Democracy, preach Denoonacy, and above all to vote De-

Democrats out of young people | Franklin D Rosseveit has been re-

dray behind our President. I want after the first Monday in Neverther, question is asked Watchman, what of the night" let it be told and restold. "I know of no higher calling save and echoed and re-sceled from one one than that of seeking to make end of this Nation to the other that o invite into our fold those who have and that 'Ail is well'

We have said before we are required by law to do this-our advice is to pay up Now-A delay will be added expense.
