### DILLINGER'S CAR CHASED BY POLICE

SAN DIEGO, Cal.—The motor car of the late John Dillinger sped through the north section of San Diego at what sheriff's deputies said was nearly 900 miles an hour. So they hunted down C. C. Myrick, of Tucson, Ariz. He paid a fine of \$25 for speeding after convincing officers he had purchased the car at a Federal Court sale of the dead bandit's effects.

### Your Horoscope

July 14—You are fond of travel, a keen and successful student of men and motives. You have much power for good, and can be helpful to others with council and advice. You are sympathetic, loving, domestic. You always heed a call for help.

July 16-17—If you were born July 16 or 17 you are a clear sound reasoner, generally of good disposition, but can be very sarcastic. Your likes and dislikes are very strong, but you do not cultivate hatred. You are apt to see no fault in those you love. You are much appreciated by those who understand you.

July 18, 19—You are home-loving, domestic and a very kind parent. Your nature is very cheerful and happy. You are apt to have a little conceit and vanity but will overcome this in time.

July 20, 21—You are a fluent talker, sound reasoner, but not always fair with yourself or others. You are very fond of dress and finery, and will have them if you can. You are studious and fond of books. You want to be good but circumstances are sometimes too much for you.

**Mead, Fermented Drink**  
 Mead is a fermented drink made of water and honey with yeast. Alcoholic drinks made from honey were common in ancient times and during the Middle Ages throughout Europe. The Greeks had a drink called hydromel and the Romans one called mulsa. It consisted of wine boiled and mingled with honey. Metheglin (a Welsh name) is one modern form sometimes made with spices.

**Zion Canyon in Utah**  
 Zion canyon, in Utah, spectacular gorge in Zion National park, is about fourteen miles long and varies in width from one mile to scarcely more than the reach of a man's outstretched arms. It is cut through more than 3,000 feet of white and red sandstone and the creative processes are estimated to cover a period of more than ninety million years.

**How Fish Breathe**  
 Fish breathe by extracting the air contained in the water which they draw through their mouths. On its way to the gills the water passes over a series of plates carrying a large supply of blood vessels. The oxygen which is in the water is thus brought into contact with the blood of the fish.

### For Bad Feeling Due to Constipation

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. Mrs. Ray Sullivan, of Lake Arts, writes: "My husband and I both take Theodor's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition." With reference to Syrup of Black-Draught, which this mother gives her children, she says: "They like the taste and it gave such good results."

### Plan To Put 45,000 Tar Heels To Work

RALEIGH, July 11.—(AP)—Hope that 45,000 North Carolinians now on relief will be on payrolls by October 1 was voiced by George W. Coan, Jr., state PWA administrator, to a conference of about 100 persons interested in works progress and relief plans. Most of those in attendance were attaches of the federal emergency relief and re-employment set-ups in the state and Coan said "You who want to come in on the new program, if your records are good, will be given consideration and an opportunity to continue in this great service." It will take from 30 to 45 days, Coan said, for the PWA program to get fully underway so that it can absorb the ERA and be in full swing by October 1.

There Are Others  
 They say Shakespeare never told the same story twice, but there's nothing unusual in that. Plenty of court witnesses have the same record.

### \$2,000 Worth Of Tobacco Destroyed

DARLINGTON, S. C.—Night riders were reported to have destroyed an estimated \$2,000 worth of tobacco in the fields of Bob Warr, who reputedly refused to sign a government contract to limit his acreage, and to have threatened Mrs. Warr with a gun.

Mrs. Warr said a son came in about 11 P. M. and told her it sounded as though their tobacco was being stripped of its leaves.

When she rushed out as far as the tobacco barn, she said, she met a group of night riders and was forced back into her home at the point of a gun.

She said she was unable to recognize any of the group positively because of disguises but believed she knew at least one of them.

The band destroyed between six and seven acres.
