

Mountaineers Of Unknown Ability To Face Hayesville

Leatherwood, Reeves and Summerow Expected To Be Outstanding In Friday's Game

Coach Weatherby's Mountaineers, forty-five strong, have been drilling for the past two weeks in preparation for the opening game with Hayesville Friday. Several of the players will go on the field unknown and untried. Graduation left holes to be filled. This is especially true of the line. Ross, Poteate, Garland, Hyatt, Francis, and others were all good ball players. Their positions may not be satisfactorily filled. Bridges, the best blocking-back to ever wear a Waynesville High uniform, left a position in the backfield wide open.

The find in the forward wall was Roe Leatherwood. With the proper attitude this powerful, towering giant should wreak havoc in many an opposing line and backfield. He is a natural football player who can learn rapidly. He is the fastest man on the squad, and fans will notice him down under punts, leading interference, and opening holes in the line. Red Gillett, the only other regular of the last year's line, is the sorrel-topped one hundred and eighty-pounder in the center of the line. He should play his greatest season. The others of the line belong to the "W" club, but they did not belong to the starting line of the past season. Byrd was the nearest approach, but not a certain starter. Including Byrd the others receiving the call for the first eleven have usually included Sease, Bridges, Gibson, and Rathbone. Due to an injury Leatherwood's position in the opening game may be filled with Schulhofer or Sawyer. Cathey may be placed at end instead of Sease or Bridges.

Garret Reeves, in the fullback position, is expected to be the needed strength to bolster the line on defense and tear the opposing line to shreds when the Mountaineers are goalward bound. In practice he has been getting off some good punts and passes. Reeves is one of the heaviest and fastest men on the squad. Lawson Summerow, the triple-threat, is the field general. He is expected to steady the baby trio of Reeves, Yount, and Moore, and to be the brains of the organization. Summerow can kick and pass with the best of them. Moore and Yount will carry the ball. Fans and players were pleased and thrilled by their splendid capers last season. They are better this year. However, Bill Swift may be one of a quartet in the
